

"I was fairly new to the industry and was immediately intimidated by the amount of wet mops offered in certain catalogs. I love the idea of keeping this simple and straightforward."
 ~ Carlos, Purchasing

"I was going through one textile manufacturer's catalog for mops and on one page they had 60 cotton disposable (cut-end) wet mops! Really? I can understand having a couple different sizes for janitor strength, bucket size, etc., but they all do the same thing!"
 ~ Paul, school district management
