Clearly Better!

***Take the ActionPro® Challenge...
The Difference will be Clear!***

EARTHTONE®
Sustainable Solutions

The ActionPro® Challenge

Place an unused cotton mop in clean water ~
see how much dirt a cotton mop holds, even before you begin mopping!

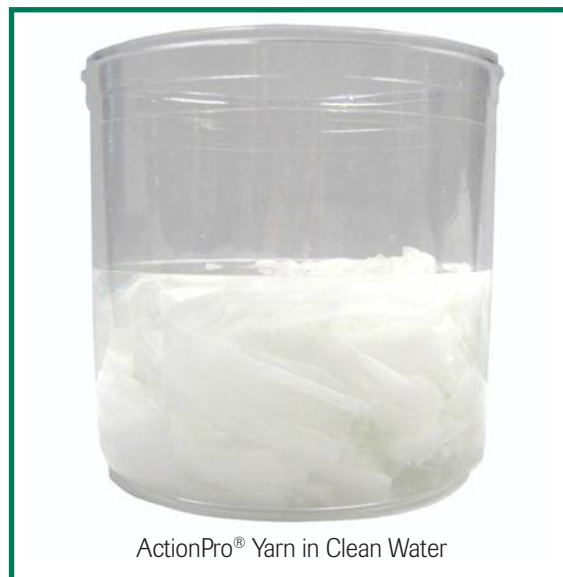

Now, place an unused ActionPro® mop in clean water . . .
the difference is CLEAR!

Cotton Yarn in Clean Water

A Cotton Mop . . .

- ◆ Contaminates mopping solution
- ◆ Requires a break-in period
- ◆ Is not absorbent
- ◆ Does not release
- ◆ Lints and frays
- ◆ Causes increased labor costs

ActionPro® Yarn in Clean Water

An ACTIONPRO® Mop . . .

- ✓ Will not contaminate mopping solution
- ✓ Requires no break-in period
- ✓ Holds 7x its weight in liquid
- ✓ Releases 40% more than a cotton cut-end
- ✓ Will not lint or fray
- ✓ Covers the same amount of square footage in half the time, with a comparative cost to a cotton cut-end

THE CHOICE IS CLEAR! The Clean Alternative to Traditional Cut-End Mops.
