

Wall Hugger™ Line

Complete line of space-saving receptacles & accessories!

These sleek receptacles are ideal for use anywhere space is at a premium. Their attractive appearance and highly functional design incorporates many convenient features such as a molded-in bag cinch, optional handles and a variety of lid designs. Steel Dollies are available to provide ease of mobility.

Our 16 gallon Wall Hugger™ receptacle with either the Drop Shot lid or the Single Dolly fits in the same space as our 23 gallon Wall Hugger™ receptacle.

Continental® Wall Hugger™ receptacles are sleek and attractive. The line includes 16 and 23 gallon versions; both protrude less than one foot from the wall! The smooth seamless design provides prolonged life and promotes easy cleaning. Wall Hugger™ is ideal for the kitchen, bar, restroom, break room or cafeteria.

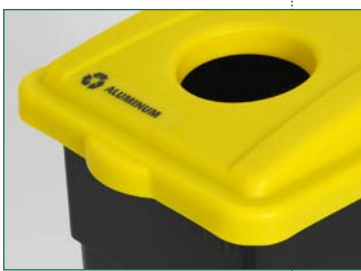

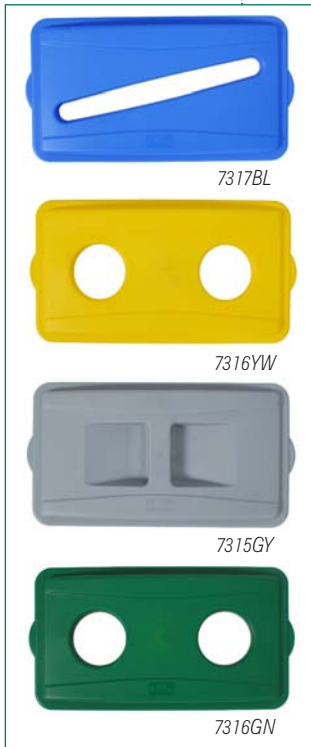

The line of Wall Hugger™ Receptacles includes a version with molded-in handles for ease of transport.

Molded-in Bag Cinch eliminates the need to tie knots in the poly liner to keep it secure around the receptacle rim!

Molded-in hand grips in the receptacle base provide a secure area to grasp when lifting and dumping.

Wall Hugger™ receptacles are the perfect space-saving recyclers, and can be matched to any of our Wall Hugger™ Recycle Lids. These color-coded lids make identification easier, which encourages users to sort their recyclables. Lids are designed to fit any wall hugger style receptacle. Add our new Quad-Collection Dolly and you have a complete recycling station to sort and transport recycled materials efficiently and neatly!

Wall Hugger™ Recycle Lids come with trilingual (Eng/Sp/Fr) "Recycle Material ID Labels" to make sorting easy!

The Drop Shot Lid has a 8 1/4" x 16 3/4" opening - the largest available for this style receptacle! Design offers hands-free waste disposal that automatically closes to conceal waste.

Our popular Push Door Lids are self-closing, trapping odors and refuse inside. The large front opening encourages use.

Our powder-coated, steel Dolly with 3", non-marking, all swivel casters creates a mobile waste collection system, when added to any Wall Hugger™.

The Half Round Wall Hugger™, with its impressive 21 gallon capacity, is ideal for today's space-efficient workplace. The rounded design fits into the tightest spaces, while remaining unobtrusive!

The Optional Mounting Bracket, 8319, securely attaches any Wall Hugger™ Receptacle to the wall, suspending it above the floor. Elevating the receptacle allows easy cleaning of the floor under and around the receptacle.
