

NEW & IMPROVED ERGOFLO™

The latest in Bucketless Mops . . .

Trigger operated liquid dispensing

Ergonomic hand grips

Lightweight aluminum handle

Angled fill cap for ease-of-use in most sinks

28 oz. reservoir covers 3,000 sq. ft. and features easy, quick-disconnect

Chemical resistant seals and valve

Additional hole locations for attachment of various frame styles

ERGOFLO™ KIT: #SYSH-5
Includes: ErgoFlo™ Handle, C717016 Pro II™ Flat Mop Frame & two C103018 18" Flat Mops

Use with ErgoWorx® hardware or standard 16" flat mop frame, or any comparable mop frame.

See other side of flyer for mops & accessories.

Super Pro II™ Microfiber Refills are made of 100% microfiber and launderable up to 500 times. Looped-end construction and Perma- Stitch sewn border guarantee extreme durability. Hook and loop attachment for easy installation and removal. Available in blue, green, red and yellow.

Super Pro II™ Microfiber w/Scrub Refills are cut-end to penetrate into cracks and crevices in the floor. Features polyester fibers for scrubbing and removing scuff marks. Launder up to 500 times. Hook and loop backing. Available in blue, green, red and yellow.

FastMop™ Microfiber provides all of the cleaning benefits of microfiber without the need to launder. Ideal for facilities concerned about cross-contamination. Each mop contains 30% microfiber and cleans between 430 to 650 square feet. Mops come in 16" and 18" sizes and are available as refills or in convenient Starter Kits which include 150 Mops and one Adaptor Pad.

FastMop™ is ideal for wet cleaning and disinfecting. Can be used with all types of chemicals.

FastMop™ Adaptor Pad allows our FastMop™ Microfiber Mops to be used with any standard flat mop frame. These pads provide smooth, even surface contact for efficient cleaning. Available in 16" and 18" sizes.

The Duster™ Microfiber Refill is specially designed to attract dust much like a cut-end dust mop. Has the strength and durability of microfiber. Use to pick up larger particles before damp mopping or disinfecting. Can be laundered 100 to 150 times.

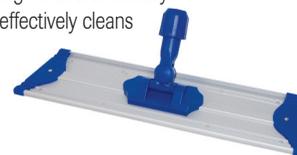

Aggressor™ Microfiber Scrubbing Refills remove stuck-on debris that standard microfiber Flat Mops cannot.

Microfiber Finishing Mop Refills are constructed of looped-end, high-wet modulus rayon blended yarn for quick, controlled liquid release. Unlike conventional finishing mops, 100% of the floor finish is released for better productivity and less chemical waste.

Pro II™ Flat Mop Frame has a lightweight design that dramatically improves labor productivity. The trapezoid head effectively cleans corners and edges. 360° swivel attachment for maneuvering in tight areas. Handle Locking Clip secures handle to frame connector.

Auto Discharge Mop Frame has a universal swivel joint with a cross-pin and locking collar for a positive lock. Ultrasonically welded Velcro® strips provide a sure grip for Microfiber Flat Mops.
