OUR PARENT COMPANY

AMERICAN PLASTICS LLC, headquartered in St. Louis, Missouri, is a leading designer and manufacturer of innovative plastic-injection molded products for the commercial cleaning and household & garage storage end-markets. The company maintains a national manufacturing and distribution footprint with state-of-the-art facilities across North America, making us the partner-of-choice for our customers, nationwide.

Our Commercial Cleaning segment offers the widest suite of high-quality, affordable goods for the janitorial, food Service and office products industries. We aim to be a one-stop shop for non-chemical commercial cleaning, maintenance, safety, and related products, with industry-leading service and flexibility. To view these products, please go to: **ccpmfg.com**

Our Retail segment offers resin-based household and garage storage products, shelving systems, tool boxes, and workstations. Our Retail products can be found in leading home improvement mass merchandise and hardware retailers. We pride ourselves on our industry-leading technological capabilities and constant innovation, driving new and unique products in partnership with our retail customers. To view these products, please go to: **CentrexPlastics.com**, **CreativePlasticConcepts.com**, **Contico.com**, and **Shelves.com**

Certification Icon Definitions

CALIFORNIA STATE FIRE MARSHAL - The State of California fire codes are believed to be the most stringent of all the United States. Once a product has obtained UL and/or FM approval, they are submitted to California for acceptance. (osfm.fire.ca.gov)

DERMA-TEK® - This proprietary, smooth surface, nonporous design is tough, durable and seamless – making it easy to clean and keep clean, which provides a professional appearance. Plus, Derma-Tek will not absorb chemicals, liquids or odors and will not rust, dent, chip or corrode.

FACTORY MUTUAL - FM is an independent testing agency that approves covered containers based on their ability to withstand an internal fire by the elimination/reduction of oxygen intake, to remain upright if tilted and to maintain shape and contain its contents throughout a specific temperature range. (fmglobal.com)

FDA - This regulatory agency of the U.S. government is responsible for determining how materials may be used in contact with food. Their regulations also provide specifications regarding composition, additives, and properties. A material which meets these standards can then be stated as FDA COMPLIANT. (fda.gov)

HACCP - Hazard Analysis Critical Control Points is a systematic approach to food safety. This approach utilizes seven principles and practices for analyzing a food process and determines the hazards within that process. (nal.usda.gov/fnic/foodborne/haccp/index.shtml)

NSF - National Sanitation Foundation is an independent testing laboratory that lists products which meet their criteria for cleanliness and sanitation in the areas of food contact and splash zone. Continental® manufactures products that meet the following NSF Standards: "Standard 2: Food Equipment" and "Standard 21: Thermoplastic Refuse Containers". (nsf.org)

OSHA - The Occupational Safety and Health Administration works with employers and employees to create better, safer and healthier working environments in the United States. OSHA Sanitation Regulations (Standards - 29 CFR) state that any receptacle used for putrescible solid or liquid waste or refuse shall be so constructed that it does not leak and may be thoroughly cleaned and maintained in a sanitary condition. Such a receptacle shall be equipped with a solid, tight-fitting cover, unless it can be maintained in a sanitary condition without a cover. (osha.gov)

USDA - The United States Department of Agriculture is a Food and Safety Inspection Service that regulates manufacturing, packaging, and handling practices in the agricultural food industry. USDA requirements for material approval are satisfied by a certification of FDA Compliance. (usda.gov)

ColorGuard® - Look for the ColorGuard logo beside products throughout this catalog. These items are designated for use in a color-coding system. Color-coding is a quick and intuitive way to insure that HACCP guidelines are being met. Simply designate each color to a different room, and eliminate the risk of cross-contamination.

FLOOR CARE | WET

Continental's new line of Huskee™ Wet and Dust Mops was created to make textile ordering easier! Our offering is now streamlined to the core items required for a complete and comprehensive floor care program. From our top of the line HuskeePRO looped-end mop to our economical HuskeeEconomy Dust Mop, our products offer exceptional quality and value.

Protect Against Slip & Fall Injuries and Liabilities!

the numbers don't lie!

Safety is critical to your business's bottom line . . .

#1 cause

Slips & falls account for the most accidents in **hotels, restaurants & public buildings.**

#1 cause

The top reason for employee & guest slip & fall injuries in **supermarkets.**

25,000 per day

The number of people who are **victims** of a slip & fall accident.

95 million per year

The number of lost **workdays**, due to a slip & fall injury.

\$50,000

The average cost to defend a slip & fall **lawsuit.**

\$70 billion annually

Compensation & medical costs associated with employee slip & fall injuries.

300%

The increase the Food Service Industry has seen in personal injury **lawsuits** since 1980.

Combined Data: National Floor Safety Institute, National Safety Council, Jury Verdict Research, Wausau Insurance, Liberty Mutual, Bureau of Labor Statistics, and C.N.A. Insurance

FLOOR CONES & SIGNS

Continental's complete line of safety signs and floor cones provides **economical protection against slip and fall injuries and liabilities**. Multilingual messages and universal symbols allow you to reach any audience. All products in this category are OSHA approved.

FLOOR CONES

A] QUAD-CONE

Available in 26" or 36" heights, with universal caution symbol on all four sides. Accommodates barrier chain or common barrier tape, for cordoning off an area.

Item #	Dimensions	Color	Case Pack
221YW	11" x 11" x 26" H	Yellow	3
222YW	12 1/2" x 12 1/2" x 36" H	Yellow	3

FLOOR SIGNS

B] POP-UP SAFETY FLOOR SIGN

Four-sided design provides 360° of visibility, for maximum safety. Bright yellow, with trilingual message and universal symbol. Features a nylon loop that enables the sign to hang on a jani cart, or for storage. Folds flat for convenient storage.

Item #	Dimensions	Color	Case Pack
216	14" x 14" x 15 1/4" H	Yellow	12

FLOOR SIGNS

WET FLOOR SIGNS

26.5" high, easel-type sign with a two-sided, trilingual (Eng/Sp/Fr) imprint message. Accepts barrier chain or common barrier tape, for connecting multiple signs and cordoning off an area.

Item #	Description	Dimensions	Color	Case Pack
119	"Caution" Sign	12" x 26 1/2" H	Yellow	6

MOP BUCKETS, WRINGERS & COMBOS

Our line of American made mop buckets and wringers set the standard for durable construction and quality. An innovative wringer design maximizes mechanical advantage, reducing worker strain and increasing productivity. Our molded-in mop handle rest keeps the mop handle in place during transportation and storage.

what are the facts?

Continental's desire for both ergonomics and efficiency determined the unique design of the Splash Guard™ buckets . . .

Taller Design

Added height at the wringer side provides greater leverage with less back & muscle strain. From the floor to the top of the wringer, the 35 qt. Combo is 27.5" and the 26 qt Combo is 23.5".

Sloped Walls

Funnel-type reservoir easily directs mop to the target area, while preventing water from being splashed out.

Mop Target Area

With the wringer in place, our buckets offer a larger target area than the other leading brands.

Hand Grip

Molded-in grip area aids in lifting and emptying the bucket.

COMBOS

A] INSTITUTIONAL WRINGER COMBO

This 35 quart Institutional Wringer Combo features 3" non-marking, grey casters for improved maneuverability. Features bottle caddies, a mop handle rest, waste receptacle hooks, and our smooth Derma-Tek® finish.

Color: Yellow [YW]

Item #	Size	Dimensions	Product Weight	Case Pack
335-39YW	35 qt.	21 1/2" x 18 3/8" x 20 1/2" H	16.00 lbs.	1

B] 26 & 35 QT. SPLASH GUARD™ SIDE-PRESS COMBO PACK

26 & 35 quart buckets with 3" non-marking, grey casters and a SW12 side-press wringer. Features our smooth Derma-Tek® finish.

26 qt. Colors: Blue [BL], Yellow [YW]

35 qt. Colors: Blue [BL], Green [GN], Red [RD], Yellow [YW]

Item #	Size	Dimensions	Product Weight	Case Pack

MICROFIBER HANDLES, FRAMES & DISPOSABLE MOPS

Our microfiber handles and frames are ideal for use in healthcare facilities and schools. These professional grade products increase performance and maximize worker productivity. Durable and light-weight aluminum components provide long-lasting quality.

MICROFIBER HANDLES

HUSKEE™ RAPID RESPONSE MOPPING SYSTEM

This bucket-free system delivers a controlled solution - providing a faster-drying, smear-free floor. The 15.2oz (450mL) reservoir holds water or cleaning solution that matches the pad absorbency volume, as a secondary indicator to change the pad. 16" frame accepts an 18" Microfiber Flat Mop or Single-san™ mops, found on pages 11-12.

DISPOSABLE MOPS

C] HUSKEE™ SINGLE-SAN

Microfiber/polyester blend removes 99.9% of microbes, virtually breaking the infection chain. Smear and streak-free, with built-in scrubbing power. Hook and loop attachment to any 16" hook and loop frame.

Item #	Description	Size	Color	Case Pack
RR-SS	Huskee Single-san	18"	White	3 pks. of 50 ea.

MICROFIBER FLAT MOPS

Our 100% microfiber mops offer many advantages to today's cleaning challenges. We use the highest quality, ultra-fine, synthetic fiber that is very durable, and provides superior bacteria removal.

WHAT IS MICROFIBER?

Unlike conventional mop yarns, each strand of microfiber is wedge-shaped with sharp edges, making it very effective for removing, absorbing and accumulating virtually any type of dirt, dust, grease or contaminant. When paired with the Huskee Rapid Response Mopping System (page 10), they become an important component for a comprehensive Green Cleaning Program as per the US Green Building Council's (USGBC) LEED for Existing Buildings Rating System (LEED-ED:OM), Practice Green-health's Green Guide for Health Care and the Healthy Schools Campaign's Quick & Easy Guide to Green Cleaning in Schools.

laundry instructions

Machine wash separately, using a neutral detergent (pH ~ 7.0), avoid alkali (if alkali product is used, product must be neutralized before drying). Avoid pH levels above 9.0. Exposure to pH levels above 9.4 will damage the product. Use moderate bleach, if necessary. Wash with hot water, up to 195°F (90° C) and tumble dry, up to 195°F (90°C). Do not use fabric softeners.

LAUNDERABLE REFILLS

HUSKEE™ MICROFIBER FLAT MOPS

Looped-end construction and durable microfiber provide long product life. Made of 100% microfiber, it can be laundered hundreds of times, when cared for properly. Surged border is extremely durable. Hook and loop attachment for easy installation and removal from frame. Can be used for damp or dry mopping. Use with Microfiber Frames, found on pages 10-11.

Item #	Dimensions	Color	Case Pack
C103013	13" x 5"	Blue	12
C103018	18" x 5"	Blue	12
C103020	20" x 5"	Blue	10

BENEFITS

More Cost Effective
Cleans faster and lasts up to 6x longer than traditional mops.

Healthier
Superior bacteria removal; improves Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHP) scores and reduces hospital acquired infections. Reduces bacteria on 95% of all hard surfaces.

Greener
Significantly reduce consumption of water and chemicals; Re-usable and can be washed hundreds of times when cared for properly.

Safer
Light-weight mops reduce work strain

THE FIVE BASICS OF WET MOPS...

CONSTRUCTION

looped-end

Designed for superior performance and extended life. There are no ends to fray or unravel as the mop sweeps over the floor surface in a wide, even path. Although the initial investment is higher, its increased performance, reduced labor cost, and less frequent replacement, quickly compensate.

Our line of **launderable, looped-end mops** are designed to meet the needs of the health care industry and others who launder mops. These mops may be laundered repeatedly, while maintaining their clean appearance, low lint factor, absorbency, and strength, without shrinking. They also save money by outlasting cut-end mops up to 8x, and reducing labor costs by up to one half!

cut-end

The cut-end is the standard, **most popular and economical (initially) mop style**. Cut-end mops fray and unravel, increasing the lint factor and leaving loose strands behind. In addition, without tailbands, cut-end mops cover less area per pass. Since cut-end mops cannot be laundered, they are often considered “disposable” and are thrown away when their useful life is over.

YARN

Choosing the Best Value in Wet Mops

YARN	ADVANTAGES	DISADVANTAGES	USES
Cotton	Good absorption and retention. Low initial cost. Gentle on surfaces.	Requires break-in. Lints and dries slow, promotes mildew and deterioration.	General use, picking up liquids, scrubbing.
Rayon	Quick absorption and release. Dries fast, mildew resistant. Cleaner yarn, lints less.	Shrinks when laundered. Less liquid retention.	Applying liquids (finishes, disinfectants).
Synthetic	Long staple fiber for superior tensile strength, no lint. Quick release.	Higher cost. Poor absorption.	Professionals who require better and longer lasting mops.
Blends	Ideal balance for price, performance and durability. Synthetic fibers add durability and color.	May shrink (unless pre-shrunk).	Professionals who require better and longer lasting mops.

yarn

Certain yarns do a specific task better than other yarns. That's why there is such a variety of mops. To get maximum efficiency and value from a wet mop, it is important to select the right yarn for the job.

yarn ply

Yarn ply indicates the number of strands twisted together to make a single yarn strand. More plies give added strength, though higher ply numbers do not necessarily mean higher quality yarn. More strands may add durability but they also decrease absorbency. It is generally recommended to choose a higher quality yarn than a high ply, low quality yarn.

twist

A yarn's "twist" is a result of how tightly the fiber strands are wound together. While a tightly twisted yarn might be stronger and last longer, its absorbency may be decreased. Like yarn ply, the best value isn't determined by the yarn's twist, but by the type and quality of the yarn and the mop's construction. A mop with looped-end construction enables the yarn to have a loose twist while eliminating fraying.

HEADBANDS

1¼" headbands are compatible with stirrup-type handles and are useful on finishing-type mops such as our Huskee™ Finish Mop. 5" width headbands are compatible with clamp and jaw-type handles. The synthetic mesh material provides non-abrasive scrubbing to help dislodge dirt and to allow quick drying of yarns. Abrasive scrubbing pads can also be included.

Headbands are color-coded for quick identification:
RED: Small LARGE: Blue
MEDIUM: Green X-LARGE: Yellow

TAILBANDS

A tailband on a wet mop is designed to improve coverage and to enable the mop to cover a wider path, saving time and increasing productivity. Tailbands also prevent tangling so that a mop can be laundered repeatedly. Tailbands are included on all CCP looped-end wet mops.

SIZES

A mop's size should be in relation to the job to be performed, the mop wringer being used, and the user's size. Cut-end mops are sized by their approximate weight in ounces, or are numbered. Looped-end mops are sized by industry standards, since they absorb and retain much more, while also covering a greater surface area than a cut-end mop, of comparable weight.

Size	Ounce Size	Band
Small	8-10	Red
Medium	16-20	Green
Large	24-32	Blue
X-Large	32-40	Yellow

what are the facts?

Choose a tool that gets the job done faster and better . . .

Why use an inefficient, "disposable," cut-end mop, when you can get the job done **twice as fast** with better results, using a looped-end mop? Looped-end mops cost more, but the price of a tool is **less than 1% of the cost** of mopping a floor.

One looped-end mop will **outlast eight cut-end mops**. A looped-end mop can actually be less expensive - by **up to 3x!** That means less mops to order, to stock, to change, and to dispose of.

labor savings

Based on mopping 5,000 sq. ft., at \$12 per hour.

	Cut-End	Looped-End
Daily Total	\$24	\$ 12
<i>Savings</i>		<i>\$ 12</i>
Monthly Total	\$720	\$ 360
<i>Savings</i>		<i>\$ 360</i>
Annual Total	\$8,640	\$4,320
<i>Savings</i>		<i>\$4,320</i>

The **real savings are labor costs**, an expense that eats up over 90% of your floor care budget. Several factors contribute to a looped-end mop's cost advantage. A looped-end mop covers a wider surface area (without gaps and loose strands, common with cut-end mops), absorbs up to six times as much liquid, and covers twice as much floor, with fewer trips to the bucket and wringer ~ in the same amount of time! Your annual savings in labor can easily be in the thousands of dollars!

mop cost savings

Based on buying eight cut-end mops per month.

	Cut-End (\$5 each)	Looped-End (\$9 each)
Monthly Total	\$40	\$ 9
<i>Savings</i>		<i>\$ 31</i>
Annual Total	\$480	\$108
<i>Savings</i>		<i>\$372</i>

In addition, **looped-end mops provide better results**, whether just damp mopping or finishing. That's because looped-end mops lint much less, providing a smoother application of chemicals, and have tailbands that help prevent tangles. You're cleaning and finishing floors better, for less cost, a fact that both accountants and users will appreciate!

WET MOPS

CCP's comprehensive product line features **a mop for any job and any budget**. We offer a wide variety of yarns as well as new products to help users do their job more efficiently. From premium looped-end mops to economic cut-end mops, we have a mop for any application.

Let's talk value!

Selling the Right Mop for the Right Job

As every successful distributor knows, providing your customers with high-value products results in customer satisfaction. And, satisfied customers are repeat customers.

But how can an often overlooked commodity product, like a mop, affect your bottom line? Even though a mop represents an insignificant part of a job's cost, it has a great impact on the results. Upgrading your customer's floor care tools to looped-end mops provides them with better performance, longer mop life, and reduced labor costs.

Since **labor costs account for over 90%** of a floor care program, it makes sense to help your customer reduce this cost.

Looped-end mops, with their wider surface coverage, superior absorption, and cleaner results can reduce labor costs by up to one-fourth, providing you with a satisfied customer.

And, since **looped-end mops outlast cut-end mops up to 8x**, your customer saves even more!

sustainability

All Continental Commercial Products® wet mops have green attributes that promote and enhance a comprehensive sustainability program. You can be sure that **CCP wet mops are environmentally friendly** and are constructed with a level of quality that ensures durability.

LOOPED-END WET MOPS

A] HUSKEEPRO™ BLEND

This is our top-of-the-line blend mop, capable of cleaning two to three times the area with up to six times the life of a conventional, cut-end mop. Quick-drying yarn resists the growth of mildew and bacteria. Ideal for disinfecting and for all-purpose cleaning.

FLOOR CARE | DRY

Before any wet floor care maintenance can happen, dust and dirt particles have to be removed. Be it on hardwood, linoleum, carpet, or even concrete, we have a wide range of tools to get the job done the first time. All of our items are quality tested and annually reviewed to make sure the professionals who use our floor care tools have exactly what they need.

DUST MOP DEFINITIONS

yarn

Cotton is the most economical and popular yarn, despite its disadvantages, when compared to other fibers. Cotton is often blended with synthetic fibers, to add strength and absorbency. Some of these yarns are designed to withstand laundering, while others, like disposables, are constructed with bulky, loosely twisted yarn for better dust removal. Nylon, like that used in our HuskeeProStat™, has electrostatic properties that attract dust particles, without the use of treatment.

cut-end

The cut-end dust mop, though more economical at first, tends to fray, unravel and lint. This can decrease its performance and lead to replacement of the mop. Laundering can decrease durability.

looped-end

By trapping more dust, producing less yarn debris and resisting tangles, the looped-end dust mop delivers maximum performance. Because looped-end yarns withstand heavy use and frequent laundering without fraying and unraveling, linting is virtually eliminated. Looped-end yarn is for hi-tech and health care applications.

backing

Synthetic backing material has replaced cotton, as the industry standard, because it dries much faster and absorbs less treatment than cotton. We also offer a variety of backing styles including Open Back and Key Hole (illustrated at right). Our Disposable Dust Mops are available with backings as shown.

Key Hole

Open Back

durability

High quality construction standards lead to the best value, in a dust mop. **Huskee™** mops are made with the highest level of professional quality, with pre-shrunk backings and top-grade yarn, to withstand heavy use and repeated launderings. Reinforced stitching at stress points are signs of better mop construction. Innovative yarns, like our HuskeeProstat™, can provide longer-lasting service, as well as increased performance.

frames & handles

To provide free swiveling or rigid handle positions, use a handle with a swivel-snap device attached to the frame. Frames are available from 18" to 48".

DUST MOPS

Choose any of our CCP dust mops to protect your floor and finish from abrasive dust and dirt.

Let's talk value!

CCP offers the best value in dust mops!

The removal of dust and dirt particles is the first step in proper floor care. A preventative maintenance program, using quality dust mops, will protect your floor and finish from abrasive dust and dirt particles. To accommodate your needs, we offer a variety of dust mops to assist in the efficient removal of dust and dirt. Let the following information assist you in choosing which dust mop is right for your needs.

- 1** A wide variety of high grade yarns provide maximum durability and performance.
- 2** Extra stitching assures long life, even with laundering.
- 3** Heavy-duty, rust resistant snaps are fast and easy to use.
- 4** Durable synthetic (polyester) backing dries fast and is available in bright colors.

DUST MOPS

Protect your floor and finish from abrasive dust and dirt, with our Huskee™ dust mops.

PROFESSIONAL DUST MOPS

DURABLE, LAUNDERABLE MOPS

These high-performance dust mops are designed and constructed for industrial laundrers, healthcare facilities, and other demanding applications. Innovative yarns, pre-shrunk synthetic backings, and heavy-duty construction techniques provide maximum durability and efficiency.

A] HUSKEEPRO™

High-grade, cotton blend, looped-end yarn won't fray or unravel, even after laundering. This ensures longer product life than conventional cut-end dust mops. Looped-end design provides maximum dust collection and product longevity.

Item #	Size	Yarn Type	Color	Case Pack

FLOOR SWEEPER

Our Huskee® Floor Sweeper is the economic, environmentally friendly cleaning solution you've been looking for! Perfect for any type of cleaning environment, especially food service facilities, restaurants and busy hotel and hospital lobbies. Designed to be an easy-to-use, silent, and effective answer to your everyday cleaning needs.

A] HUSKEE® POWERROTOR SWEEPER

These sweepers clean hard floors and carpets. The self-cleaning, flexible, rubber blades beat the floor with high frequency, creating friction and momentum that cleanly transports dirt, food, lint, and other debris into the dust compartments. Durable plastic body resists scratches and dents and is easy on walls, doors, and furniture.

Item #	Width	Color	Case Pack
5325	9 1/2"	Black	1

DUST PANS

We offer a wide range of dust pan sizes and styles to fit your specific needs. Perfect for industrial, commercial, and outdoor use.

HAND-HELD DUST PANS

B] PLASTIC DUST PAN

Tough, yet flexible. Thin front edge for maximum dirt pick up. Features a hanger hole.

Item #	Hopper Dimensions	Handle Length	Color	Case Pack
712	12 1/4" x 12"	4"	Black	12

HAND-HELD DUST PANS

A] JUMBO DUST PAN

Lightweight, yet strong. 18.5" mouth makes this dust pan ideal for outdoor maintenance such as picking up leaves and other debris. Contoured handle fits on standard broom or rake handles and has a hanger hole. Rubber feet prevent sliding.

Item #	Dimensions	Color	Case Pack
E603000	18 1/2" x 18" x 7"	Black	12

E603000

LOBBY DUST PANS

B] LOBBY DUST PAN

Durable plastic hopper with vinyl-coated, steel handle. Pan snap-locks in use and releases to dump or carry. Space-saving hanger for storage. The true-edge of pan conforms to floor - no need for repeated sweeping. Serrated yoke provides area to "comb" debris from lobby broom. 36.5" total height.

Item #	Hopper Dimensions	Color	Case Pack
912BK-12	12" x 10" x 6"	Black	12

912BK-12

C] LOBBY DUST PAN / SYNTHETIC BROOM SET

This convenient set is perfect for tidying up, in many areas. The Lobby Dust Pan has a durable, plastic hopper, with a vinyl-coated, steel handle. Pan snap-locks in use and releases to dump or carry. Space-saving hanger for storage. The true-edge of pan conforms to floor - no need for repeated sweeping. Serrated yoke provides area to "comb" debris from lobby broom. At 35" high, the companion broom is perfectly sized for use with this lobby dust pan. Stiff, flagged, polypropylene bristles do an excellent job of collecting debris on floor surfaces ranging from carpet to tile. 36.5" total height.

Item #	Hopper Dimensions	Broom Dimensions	Color	Case Pack
812C	12" x 10" x 6"	10.5" x 36"	Black	1

SWEEPS - FLOOR & GROUND

Black Tampico

Comes from the leaf of the cactus-like Lechuguilla plant of Mexico. With a soft to medium texture and good durability, Tampico may be used alone or blended with other materials. Naturally off-white in color, the fibers are dyed black.

C] BLACK TAMPICO FLOOR SWEEP

This full-bodied, flexible, and long-wearing sweep is ideal for industrial or commercial cleaning on concrete, wood, or tile floors. Considered the best all-purpose tool for fine to medium clean up jobs. Black fibers.

Item #	Block	Block Size	Bristle Trim	Case Pack
F006018	Wood	18"	3"	12
F006024	Wood	24"	3"	12

F006018

Accepts threaded handles only. Found on pages 23 and 37.

HANDLES

Our selection of professional quality handles includes threaded and tapered styles in a variety of sizes. From lightweight to extra durable, you will find the handle that best fits your needs.

UTILITY HANDLES

A] METAL THREADED WOOD HANDLE

This handle is great for use with sweeps and scrub brushes. Comes in lacquered wood.

Item #	Head	Shaft Dimensions	Color	Case Pack
M104060	Metal	1 ⁵ / ₁₆ " x 60"	Natural	12

B] THREADED WOOD HANDLE

Wood handle with lacquered finish stands up to heavy use. Standard threads fit many products.

Item #	Head	Shaft Dimensions	Color	Case Pack
M101060	Wood	1 ⁵ / ₁₆ " x 60"	Natural	12

C] HUSKEE™ HANDLE w/Universal Locking Collar

Plastic, universal, locking collar is designed to prevent unthreading and increased durability. Ideal for Huskee™ Muscle Mops®, found on page 18.

GENERAL CLEANING

At CCP, we like things clean. Not just clean, but really clean. Our Product Managers have worked hard to make sure if you like really clean things, this section will have you covered.

GENERAL CLEANING

CARTS

Our carts are the workhorses of the industry, and easily accommodate a variety of tools and supplies, increasing organization and worker efficiencies.

JANITOR CARTS

Our exclusive Derma-Tek® Smooth Surface makes our carts the easiest in the industry to clean and keep clean! All-plastic construction will not rust, peel, or fade. The color is molded throughout, keeping scratches and dings from showing. The four-legged design is more stable under heavy loads and actually helps to contain the load when over-stuffing the center collection area. Non-marking, grey, 8" rear wheels and 3" front swivel casters provide maximum maneuverability with minimum effort and prevent floor scuffing. Large oversized wheels and casters provide an effortless ride with minimal noise; ideal for any type of cleaning environment.

JANITORS' CART

This cart is the workhorse of the industry! Designed to accommodate and organize tools and supplies required by today's stringent facility managers. Over-sized wheels and casters make this cart the logical choice for heavy-duty applications in healthcare, airports, convention centers, theaters, shopping centers, office buildings, and more! Zippered Vinyl Bag is included.

184 Colors: Black [BK], Grey [GY]

Item #	Dimensions	Case Pack
184	55 ⁵ / ₈ " x 20 ³ / ₄ " x 38" H	1

DID YOU KNOW...

**DERMA-TEK®
FINISH**

Will not absorb chemicals,
liquids or odors, will not rust or
corrode, resists dents & chips.

Did you know...

Our Wall Hugger® Receptacle can be added as a rigid plastic liner in place of a vinyl bag, without the use of tools or additional hardware.

JANITOR CARTS

A] JANITOR CART ACCESSORIES

Optional Locking Compartment (187YW) with dual wall construction provides a high level of security where needed. The CCP 184 Cart will accept two optional locking compartments.

Ergonomic Bag (188YW) zips open completely to easily remove heavy contents and avoid back injury. 25 gallon capacity. Fits 184 Cart.

Item #	Description	Color	Case Pack
187YW	Locking Compartment	Yellow	1
188YW	Zippered Vinyl Bag	Yellow	6

CART ACCESSORIES

B] HUSKEE® JANI-CARRIERS

Seamless, high-impact plastic is durable and chemical resistant. Fits most hotel and janitorial carts. Maxi accommodates up to 4.25" diameter bottles.

Item #	Size	Color	Case Pack

WASTE COLLECTION

In 1976, we were the first to establish what a commercial trash receptacle should be, and proudly named it Huskee™. Always made in the USA with durable, high-quality resin, this full-feature receptacle provides years of use. For nearly a half century, we've carried that same Huskee quality into our full line of receptacles, lids, and accessories. Engineered for greatness, this line-up is prepared for your dirty jobs.

WASTE COLLECTION

Huskee™

THE COMMERCIAL CONTAINER

The industry standard since 1976

DURABLE LIDS
Tight closure. Allows receptacles to be stacked.

BAG CINCH
Secures the poly liner on 32, 44 and 55 gallon sizes, without having to tie it!

HEAVY-DUTY HANDLE
Reinforced handles provide secure areas for lifting or moving the receptacle.

FLANGED RIM
Adds strength and durability.

Huskee™
Continental Commercial Products

High-quality, commercial-grade wall stock is perfect for cold climates.

CUSTOMIZE
Wide range of color options. Customize with your logo or a special message.

REINFORCED BASE
Extra reinforcement produces a much stronger and longer-lasting receptacle! Accepts universal dolly!

RECEPTACLES, LIDS & ACCESSORIES

Simply put, Continental's line of indoor and outdoor receptacles is the best! Best in choice, functionality and value. Add our dollies and accessories to maximize performance and add even more value!

HUSKEE™ ROUND

The industry standard! Molded with seamless construction, the Huskee is a strong, long-lasting receptacle that is used everywhere. From food prep to foundries, from refuse to bio-hazard waste, Huskee keeps on working. **For Huskee Accessories, see pages 52-54.**

FAQ's...

Which Huskee receptacles are NSF: Standard 21 rated?
All bases and lids & BackSaver.

Which Huskee receptacles are NSF: Standard 2 rated?
Grey and white bases & lids, except BackSaver.

Which Huskee receptacles are FDA and USDA approved?
All our Huskee receptacles, from 10 to 55 gallon, are made of FDA compliant material. USDA requirements for material approval are satisfied by a certification of FDA compliance.

What temperature range can a Huskee withstand?
0 -190° F for NSF rated items, 0 - 205° F for all other Huskee receptacles.

What material are Huskee receptacles made of? LLDPE

Can you store wine in a Huskee? We recommend against using a Huskee, or other plastic waste receptacles, for wine storage. During the fermenting progress, the taste of plastic can pass into the wine.

WASTE COLLECTION

RECEPTACLES, LIDS & ACCESSORIES

A] HUSKEE™ BACKSAVER

This receptacle is everything the standard Huskee Round is, and more! Internal vent ribs, which break the vacuum caused when removing a poly liner, were incorporated into the design, making it the easiest receptacle to use. Compatible with the Huskee Round Dolly, Caddy Bag, Maid Caddy, 44 gallon Huskee Round Lids.

44 Gallon Rim Dimension: 24" Diameter

Item #	Size	Dimensions	Color	Case Pack
4410GY	44 gal.	27" x 31" H	Grey	3

Built-in Huskee Bag Cinch eliminates the need to tie knots in the poly liner to keep it secured around the receptacle rim!

BackSaver IS SAFER BECAUSE OF VENTS!

The National Safety Council puts the total cost of work injuries at \$121 billion annually, and the cost per disabling injury at \$26,000, and growing. Back injuries are 20% of all claims. The Huskee BackSaver uses internal, ergonomic lift vents to break the vacuum created when removing a poly liner, resulting in reduced effort and reduced risk of back injury.

A]

B] HUSKEE™ ROUND FLAT LIDS

Molded with seamless construction for durability and easy, thorough cleaning. Lids fit securely to keep waste and odors in, and rain and pests, out. Interlocking design allows Huskee receptacles to be stacked.

Huskee Lid Assortment

RECEPTACLES, LIDS & ACCESSORIES

A] HUSKEE™ HEAVY-DUTY DOME TOPS

Made of heavy-duty, structural plastic, the Dome Top fits our 44 gallon Huskee receptacles and standard 55 gallon metal drums. Doors are quiet and self-closing. Wide rim and tight-fitting door with rain deflector keeps debris and odors in, rain and pests out.

Door Dimensions: 10" x 7" H

Item #	Fits	Dimensions	Color	Case Pack
4455BK	44 gal.	25" x 12 1/2" H	Black	3

B] HUSKEE™ SQUARE

These containers are ideal for food handling, hospitals, and commercial refuse collection. All Square Huskee receptacles are stackable with lids on and nestable without lids. Lids snap and lock in place, keeping refuse and odor in, rain and pests out. This container is easy to clean and has a molded in bottom grip for comfortable lifting. Heavy-duty, non-slip handles have drain holes.

Colors: Grey [GY], White [WH]

Item #	Size	Dimensions	Case Pack
2800	32 gal.	24 3/4" x 21 1/2" x 22 1/2" H	6

C] HUSKEE™ SQUARE LIDS

Durable lids provide a tight closure. Enables receptacles to be stacked.

Colors: Grey [GY], White [WH]

Item #	Fits	Case Pack
2801	32 gal.	6

WASTE COLLECTION

RECEPTACLES, LIDS & ACCESSORIES

A] HUSKEE® ROUND DOLLY

This twist-on, twist-off Dolly converts a stationary Huskee into a mobile, hard-working tool. Fits the 20, 32, 44 and 55 gallon Round and Square Huskees. Features 3" non-marking swivel casters.

Item #	Description	Number of Casters	Weight Capacity	Color	Case Pack
3255-4	Round Dolly	Five	250 lbs.	Black	4

B] HUSKEE® MAID CADDY

This handy Huskee accessory has a convenient handle to raise and carry or collapse out of the way. Fits on Round or Square Huskee receptacles.

Item #	Description	Color	Case Pack
3155	Maid Caddy	Grey	4

C] HUSKEE® CADDY BAG

Add this adjustable nine pocket caddy bag to a Round or Square Huskee on a dolly to create a durable cleaning system that is ready to make the rounds! Made of .28-.30mm nylon reinforced PVC for years of reliable service. Two-piece hook & loop closure.

Item #	Description	Color	Case Pack

RECEPTACLES, LIDS & ACCESSORIES

Derma-Tek® smooth surface enables easy clean-up. Dual, vinyl-coated cable lid stays hold the lid in a vertical position for safe, easy emptying, and help eliminate tipping of the base. Heavy-duty poly liner retainer straps allow the user to secure a poly liner within the container for a clean, professional appearance.

COLOSSUS®

Designed for high-volume applications! The contoured lid's top surface prevents accumulation of debris and water while providing a unique and visually appealing style.

Because the spring-loaded doors fit tight to the lid, and the lid fits tight to the base, this receptacle is Factory Mutual Approved. The heavy-duty door springs keep doors closed tight to keep odors in and pests out.

Door Dimensions: 17.5" x 9" H

Colors: Beige [BE], Brown [BN]

Item #	Size	Dimensions	Case Pack

WASTE COLLECTION

RECEPTACLES, LIDS & ACCESSORIES

This product aids in conforming to the OSHA regulation 1910.1030 known as “Occupational Exposure to Bloodborne Pathogens.” The line is Factory Mutual (FM) and California State Fire Marshal (CSFM) approved for fire safety. Lid attachment is covered on top so dirt does not collect in the hinge. 23 gallon version has covered wheels for mobility and cleanliness. The Spine is designed to be flexible, keeping it from breaking if the lid is held down when the pedal is stepped on. Unique “key-way” notch holds standard size poly liners.

STEP ON

Step pedal provides convenient, hands-free and hygienic disposal of waste. Lids close securely to base, keeping odors contained. Can be used with standard poly liners. The 23 gallon version has wheels and wire frame for ease of mobility. Two models, #8 and #12, are heat resistant to 122°F.

WASTEBASKETS & LIDS

Indoor wastebaskets are ideal for schools, offices, healthcare, and more. From UL classified products to economic desk side wastebaskets, these sleek and simple products provide solutions to meet all of your needs.

A] SWINGLINE™

Square Swingline containers provide 25% more capacity than round containers of the same height, which equates to labor and poly liner savings. The rolled rim provides strength and a convenient area to lift or pull. Reinforced base will take rough commercial use and they nest for easy storage. Compatible T1600 Swing Top lids.

WASTE COLLECTION

RECYCLING

Recycling is the main component of waste reduction. Continental offers a wide variety of recycling receptacles, designed for indoor and outdoor use; from small desk-side wastebaskets to our large recycle Tilt Trucks, we have the right size and style receptacle for your collection needs!

RECYCLING

Continental® has a wide variety of recycling receptacles that promote and enhance a comprehensive recycling program. Made from recycled resins, our products are highly functional and durable. Innovative, sleek and attractive designs encourage users to support recycling programs.

Products in this section are produced using recycled material.

RECYCLING WASTEBASKETS

A] COMMERCIAL WASTEBASKET

The low profile design of these rectangular wastebaskets make them ideal for a variety of recycle applications such as classroom, office, commercial or institutional use.

Item #	Size / Shape	Dimensions	Color	Case Pack
1358-1	13 ³ / ₈ qt. Rectangle	11 ³ / ₈ " x 8" x 12" H	Blue	12
2818-1	28 ¹ / ₈ qt. Rectangle	14 ³ / ₈ " x 10 ¹ / ₄ " x 15" H	Blue	12
4114-1	41 ¹ / ₄ qt. Rectangle	15 ¹ / ₂ " x 11 ¹ / ₂ " x 19 ³ / ₄ " H	Blue	12

Did you know...

that multi-stream, waste collection options can be created by combining 1358 and 4114 wastebaskets? See page 60 for all non-recycle color options.

RECYCLING RECEPTACLES

A] WALL HUGGER® RECYCLE RECEPTACLE

Built of durable plastic, these receptacles work efficiently in tight spaces. Their sleek, attractive design holds 23 gallons of recyclables, but protrude less than one foot from the wall. A molded-in bag cinch eliminates the need to tie knots in poly liners. The base features molded-in hand grips which provide a secure area to grasp when lifting or dumping. Designed with smooth, seamless construction for easy cleaning and prolonged life. At 30" tall, it is ideal for placement under standard work tables.

#8322 Colors: Black (no recycle symbol) [BK], Blue [-1]

Item #	Size / Style	Dimensions	Case Pack
8322	23 gal.	20" x 11" x 30" H	4

8322-1 / 7316GN

Bag Cinch eliminates the need to tie knots in poly liners!

Recessed hand-hold area on bottom for easy lifting and emptying.

B] WALL HUGGER® RECYCLE LIDS

Wall Hugger Recycle Lids encourage users to sort their recyclables and are color-coded to make the identification easier. Lids fit all rectangular Wall Hugger receptacles.

Item #	Size / Style	Dimensions	Opening(s)	Color	Case Pack
7316GN	Lid w/holes	21 1/2" x 11 1/2" x 2 5/8" H	(2) 4 1/8" Diameter	Green	4
7317BL	Lid w/slot	21 1/2" x 11 1/2" x 2 5/8" H	16 1/4" x 1 5/8"	Blue	4

7316GN / 7317BL

Wall Hugger Recycle Lids come with trilingual (Eng/Sp/Fr) Recycle Material ID Labels to make sorting easy!

C] WALL HUGGER® DOLLY

The Wall Hugger line offers a Dolly, to make transport easy. This attractive, powder-coated steel Dolly has 3" non-marking, all-swivel casters, enabling it to turn any CCP Wall Hugger, or other receptacle, into a mobile waste or recycle collection system.

Item #	Dimensions	Color	Case Pack
8320	19 1/2" x 10 1/2" x 10" H	Black	2

C]

RECYCLING RECEPTACLES

A] HUSKEE™ ROUND

Molded of engineered resins with seamless construction, the Huskee is a strong, long-lasting receptacle ideal for recycling applications. Add the Huskee Dolly (page 62), for added mobility. Other lid options are available on page 52.

Item #	Size	Dimensions	Color	Pack
2000-1	20 gal.	22" x 22½" H	Blue	6
3200-1	32 gal.	24¾" x 27½" H	Blue	6

B] HUSKEE™ ROUND FLAT, RECYCLE LID

3.75" center hole and permanent "Cans Only" imprint encourages use.

Item #	Size	Dimensions	Color	Case Pack
3201-1	fits 3200-1	24¾" x 1½" H	White	6

A] B]

3200-1 / 3201-1

Built-in Huskee Bag Cinch secures the poly liner to the receptacle rim, eliminating the need to tie knots in it!

C] HUSKEE® ROUND DOLLY

This twist-on, twist-off Dolly converts a stationary Huskee into a mobile, hard working tool. Fits the 20, 32, 44 and 55 gallon Round and Square Huskees. Features 3" non-marking swivel casters.

Item #	Description	Number of Casters	Weight Capacity	Color	Case Pack

MATERIAL HANDLING

These are the bad boys of our industry. Designed to last, while hauling heavy loads of the most random items you can find, these trucks and carts won't rust or distort. With a wide range of sizes and capacities, we've made sure that one person handling, easy clean up, and storage all come standard.

MATERIAL HANDLING

TILT TRUCKS

All sizes and capacities come standard with heavy gauge, enamel-coated steel frames. These units are designed to last, with plated caster housings and hardware. Metal frames are tucked into the profile of the units to support heavy loads and to prevent bulging and tub distortion.

5/8 CUBIC YARD TILT TRUCKS & COVER

All models feature one-piece, extra strong, seamless, industrial plastic construction. Inset wheel placement prevents wall/door damage and allows for nesting in shipment and in storage. Fits through standard office doorways. Optional domed, center-hinged lid helps to contain odors and keep pests out. Stainless steel piano hinge will not rust.

Item #	Size / Description	Capacity	Dimensions	Color	Case Pack

MATERIAL HANDLING

PLATFORM TRUCKS

Continental® offers three grades of platform trucks, in three popular sizes. Folding and removable handles enable them to be used in a variety of hauling situations.

A] PLATFORM TRUCKS

Structural plastic construction and rounded corners protect against accidental wall and door damage. No bumpers required. Unlike conventional metal or wood, plastic construction will not rust, dent, crack, chip, peel, or splinter. All platform trucks come in charcoal grey and feature a heavy-duty, reinforced steel handle. Casters: two fixed (stationary) and two swivel.

Color: Charcoal

Item #	Description	Capacity	Deck Size	Caster Size	Case Pack
5865	Standard	1,200 lbs.	24" x 48"	6"	1
5870	Heavy-Duty	2,200 lbs.	24" x 48"	8"	1

CARTS

Our carts are durable, easy-to-clean and highly maneuverable. Pneumatic casters, on some models, provide quiet operation on rough surfaces.

B] UTILITY CART

This two-shelf Utility Cart features Derma-Tek smooth skin, non-porous finish and 5" heavy-duty, non-marking, grey casters for industrial use. Supports 200 lbs. per shelf, 400 lbs. maximum capacity.

Item #	Dimensions	Case Weight	Case Cube	Color	Case Pack

FOOD SERVICE EQUIPMENT

When it comes to foodservice storage and handling, being on-point is a necessity. Our line contains just what you need. From special ratings that keep you and your guest protected, to easy clean up that provides maximum efficacy in a tight margin industry.

FOOD SERVICE EQUIPMENT

CART & ACCESSORIES

A] SERVICE/BUSSING CART

Three-shelf cart features 4" heavy-duty, non-marking, grey casters. Shelves feature our Derma-Tek® smooth surface for easy clean-up. Applications range from industrial use to food service and bussing. Supports 200 lbs. per shelf, 400 lbs. maximum capacity. Accepts, without tools, the 5811 and 5812 silverware and refuse bins.

Colors: Black [BK]

Item #	Dimensions	Color	Case Pack
5810BK	31 1/4" x 16 1/2" x 36 3/8" H	Black	1

B] SILVERWARE & REFUSE BINS

These durable polyethylene silverware and refuse bins complete the popular Continental® bussing cart. Both bins fit all the popular style bussing carts resulting in a collection system that can be used for a multitude of applications. The Silverware Bin easily holds 100 complete place settings of flatware to service the clean up of a small meeting or party. Compatible with the 5810 Service/Bussing Cart.

Item #	Size	Color	Case Pack
5811BK	2.45 gal.	Black	2
5812BK	9 gal.	Black	2

INGREDIENT BIN

Convenient, portable storage bins for large quantities of food ingredients such as flour, sugar, rice, vegetables, etc.

MOBILE INGREDIENT BIN

The two-piece, clear co-polyester lid lets you see exactly what's inside. Unique sloped front opens easily. Access ingredients without having to move the bin from under the counter. Two-piece lids are removable for easy filling, tilt up or slide back for convenient access. Units are equipped with four 3" non-marking casters; two swivel for fingertip maneuverability and two are fixed. The Ingredient Bin body is constructed of Derma-Tek® smooth-surface plastic. Seamless walls and round corner design make cleaning simple and thorough.

The 9321, 21 gallon Ingredient Bin holds 160 lbs. (71kg) of sugar and 126 lbs. (56kg) of flour, while the 9326, 26 gallon Ingredient Bin holds 179 lbs. (80kg) of sugar and 140 lbs. (62kg) of flour.

ODOR CONTROL

A] KLEEN BOWL AUTOMATIC TOILET BOWL CLEANER

An in-tank cleaner with a bluing agent that saves time and money while preventing scale build-up. Bluing agent releases with each flush so you know that it's working. Net weight is nine ounces per unit. Offers approximately 30 days protection.

Item #	Case Pack
P222	12

For SDS information, go to:
ContinentalCommercialProducts.com\sds.html

URINAL SCREENS

Guard against unpleasant odors and protect your floors with our complete line of floor mats and screens. These functional products offer a variety of benefits including cost savings for daily maintenance.

B] KLEEN SCREEN URINAL SCREENS

Three ounce enzymatic deodorant block contains surfactants and chelating agents to clean and deodorize for 30 days (up to 2,000 flushes)- coloring agents are released with each flush so you know that it's working. Increased ventilation reduces potential splash back. Flexible screen traps more debris to prevent costly drain clogs.

RESTROOM PRODUCTS

INFANT CARE

Our baby changing stations are safe, versatile and compliant with applicable regulations. They feature easy-to-clean surfaces, non-absorbent safety straps, bag hooks, dual liner dispensers and pneumatic shocks that allow one hand opening and closing.

Products are A.D.A. compliant when properly installed.

DIAPER CHANGING STATION

The concave shelf design provides a deep area for the child to lay, preventing them from rolling around. Heavy-duty safety straps provide an additional level of security. Safety belt with cam-buckle is adjustable with one hand for safety and convenience, belt is non-absorbent.

*Designed to hold a static load of 250 lbs., with little or no deflection.

High-density polyethylene naturally inhibits bacterial growth (tested to ASTM G21 Anti-Bacterial and ASTM G22 Anti-Fungal), which provides a safe, convenient and hygienic platform. Easy to read ANSI compliant labels (ANSI Z535.3 and ANSI Z535.4). Molded-in, dual liner dispensers will each accommodate approximately 50 bed liners.

Designed for easy mounting, the molded-in hang holes allow the unit to be attached to standard 16" on-center studs, or hung on a hollow wall - all required hardware is included. Concealed rear pneumatic strut provides smooth opening/closing power while concealed hardware maintains appearance and prevents tampering.

8252-H

Item #	Description	Size	Color	Case Pack
8252-H	Horizontal Changing Station	34 1/4" x 4" x 18"	White	1

To compliment our Infant Care products, see page 56 for our line of Step-On trash receptacles ~ perfect for diaper disposal!!
