OUR PARENT COMPANY

AMERICAN PLASTICS LLC, headquartered in St. Louis, Missouri, is a leading designer and manufacturer of innovative plastic-injection molded products for the commercial cleaning and household & garage storage end-markets. The company maintains a national manufacturing and distribution footprint with state-of-the-art facilities across North America, making us the partner-of-choice for our customers, nationwide.

Our Commercial Cleaning segment offers the widest suite of high-quality, affordable goods for the janitorial, food Service and office products industries. We strive to be a one-stop shop for non-chemical commercial cleaning, maintenance, safety, and related products, with industry-leading service and flexibility. To view these products, please go to: ccpmfg.com

Our Retail segment offers resin-based household and garage storage products, shelving systems, tool boxes, and workstations. Our Retail products can be found in leading home improvement mass merchandise and hardware retailers. We pride ourselves on our industry-leading technological capabilities and constant innovation, driving new and unique products in partnership with our retail customers. To view these products, please go to: CentrexPlastics.com, CreativePlasticConcepts.com, and Shelves.com

Certification Icon Definitions

DERMA-TEK® - This proprietary, smooth surface, nonporous design is tough, durable and seamless – making it easy to clean and keep clean, which provides a professional appearance. Plus, Derma-Tek will not absorb chemicals, liquids or odors and will not rust, dent, chip or corrode.

FDA - This regulatory agency of the U.S. government is responsible for determining how materials may be used in contact with food. Their regulations also provide specifications regarding composition, additives, and properties. A material which meets these standards can then be stated as FDA COMPLIANT. (fda.gov)

NSF - National Sanitation Foundation is an independent testing laboratory that lists products which meet their criteria for cleanability and sanitation in the areas of food contact and splash zone. Continental® manufactures products that meet the following NSF Standards: "Standard 2: Food Equipment" and "Standard 21: Thermoplastic Refuse Containers". (nsf.org)

OSHA - The Occupational Safety and Health Administration works with employers and employees to create better, safer and healthier working environments in the United States. OSHA Sanitation Regulations (Standards - 29 CFR) state that any receptacle used for putrescible solid or liquid waste or refuse shall be so constructed that it does not leak and may be thoroughly cleaned and maintained in a sanitary condition. Such a receptacle shall be equipped with a solid, tight-fitting cover, unless it can be maintained in a sanitary condition without a cover. (osha.gov)

USDA - The United States Department of Agriculture is a Food and Safety Inspection Service that regulates manufacturing, packaging, and handling practices in the agricultural food industry. USDA requirements for material approval are satisfied by a certification of FDA Compliance. (usda.gov)

ColorGuard® - Look for the ColorGuard logo beside products throughout this catalog. These items are designated for use in a color-coding system. Color-coding is a quick and intuitive way to insure that HACCP guidelines are being met. Simply designate each color to a different room, and eliminate the risk of cross-contamination.

FLOOR CARE | WET

Continental's line of Huskee® Wet and Dust Mops was created to make textile ordering easier! Our offering is now streamlined to the core items required for a complete and comprehensive floor care program. From our top of the line HuskeePRO® looped-end mop to our economical HuskeeEconomy® Dust Mop, our products offer exceptional quality and value.

Protect Against Slip & Fall Injuries and Liabilities!

the numbers don't lie!

Safety is critical to your business's bottom line . . .

#1 cause

Slips & falls account for the most accidents in **hotels, restaurants & public buildings**.

#1 cause

The top reason for employee & guest slip & fall injuries in **supermarkets**.

25,000 per day

The number of people who are **victims** of a slip & fall accident.

95 million per year

The number of lost **workdays**, due to a slip & fall injury.

\$50,000

The average cost to defend a slip & fall **lawsuit**.

\$70 billion annually

Compensation & medical costs associated with employee slip & fall injuries.

300%

The increase the Food Service Industry has seen in personal injury **lawsuits** since 1980.

Combined Data: National Floor Safety Institute, National Safety Council, Jury Verdict Research, Wausau Insurance, Liberty Mutual, Bureau of Labor Statistics, and C.N.A. Insurance

FLOOR SIGN

Our safety sign provides **economical protection against slip and fall injuries and liabilities**. Multilingual messages and universal symbol allow you to reach any audience.

CAUTION WET FLOOR SIGN

23" high, easel-type sign with a two-sided, trilingual (Eng/Sp/Fr) imprint message.

Item #	Description	Dimensions	Color	Case Pack
118	*Caution* Sign	11 7/16" x 24 1/8" H (folded)	Yellow	6

MOP BUCKET/WRINGER COMBO

Our bucket/wringer combo sets the standard for durable construction and quality. An innovative wringer design maximizes mechanical advantage, reducing worker strain and increasing productivity. Our molded-in mop handle rest keeps the mop handle in place during transportation and storage.

what are the facts?

Continental's desire for both ergonomics and efficiency determined the unique design of the Splash Guard® bucket . . .

Taller Design

Added height at the wringer side provides greater leverage with less back & muscle strain. From the floor to the top of the wringer, the 35 qt. Combo is 27.5".

Sloped Walls

Funnel-type reservoir easily directs mop to the target area, while preventing water from being splashed out.

Mop Target Area

With the wringer in place, our bucket offers a larger target area than the other leading brands.

Hand Grip

Molded-in grip area aids in lifting and emptying the bucket.

MOP BUCKET/WRINGER COMBO

35 QT. SPLASH GUARD® SIDE-PRESS COMBO

35 quart bucket with side-press wringer features 3" non-marking, grey casters, universal 'Caution' symbols and our smooth Derma-Tek® finish.

Item #	Size	Dimensions	Product Weight	Color	Case Pack	MOD Qty.
335-312YW	35 qt.	27" x 18" x 40 3/4" H	20.48 lbs.	Yellow	1	12 Pks

Must be purchased in full MOD quantities.

Pressure Plate directs water flow through front.

Mop stick holder secures mop when moving.

Ergonomic handle is easy to assemble.

Molded-in capacity levels in liters & gallons.

Structural ribs add strength & durability.

3" non-marking, all-swivel casters.

DID YOU KNOW...

DERMA-TEK®
FINISH

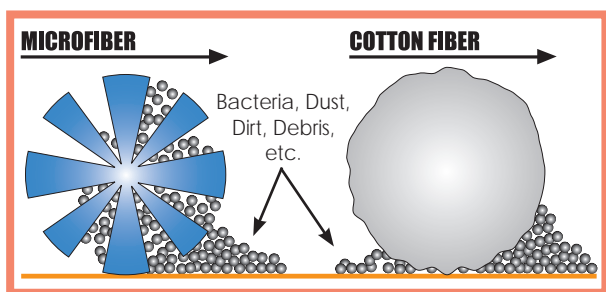

Will not absorb chemicals, liquids or odors, will not rust or corrode, resists dents & chips.

MICROFIBER FLAT MOPS

Our 100% microfiber mops offer many advantages to today's cleaning challenges. We use the highest quality, ultra-fine, synthetic fiber that is very durable, and provides superior bacteria removal.

WHAT IS MICROFIBER?

Unlike conventional mop yarns, each strand of microfiber is wedge-shaped with sharp edges, making it very effective for removing, absorbing and accumulating virtually any type of dirt, dust, grease or contaminant. When paired with the Huskee Rapid Response Mopping System (page 10), they become an important component for a comprehensive Green Cleaning Program as per the US Green Building Council's (USGBC) LEED for Existing Buildings Rating System (LEED-ED:OM), Practice Green-health's Green Guide for Health Care and the Healthy Schools Campaign's Quick & Easy Guide to Green Cleaning in Schools.

laundry instructions

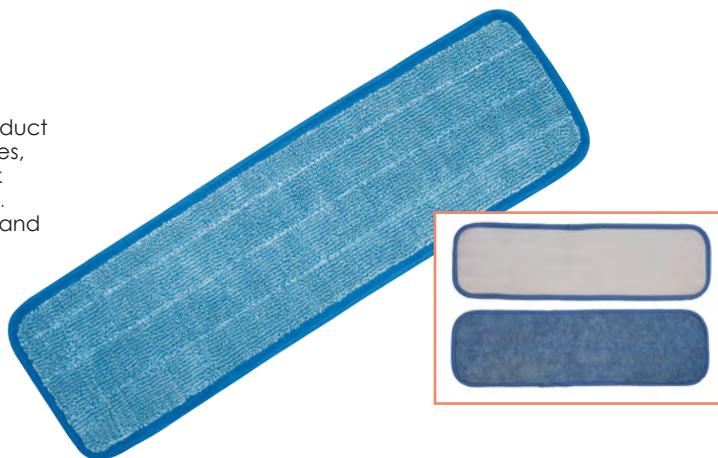

Machine wash separately, using a neutral detergent (pH ~ 7.0), avoid alkali (if alkali product is used, product must be neutralized before drying). Avoid pH levels above 9.0. Exposure to pH levels above 9.4 will damage the product. Use moderate bleach, if necessary. Wash with hot water, up to 195°F (90° C) and tumble dry, up to 195°F (90°C). Do not use fabric softeners.

LAUNDERABLE REFILLS

HUSKEE® MICROFIBER FLAT MOP

Looped-end construction and durable microfiber provide long product life. Made of 100% microfiber, it can be laundered hundreds of times, when cared for properly. Surged border is extremely durable. Hook and loop attachment for easy installation and removal from frame. Can be used for damp or dry mopping. Use with Microfiber Frame and handle, found on page 9.

Item #	Dimensions	Color	Case Pack
C103018	18" x 5"	Blue	12

BENEFITS

More Cost Effective

Cleans faster and lasts up to 6x longer than traditional mops.

Healthier

Superior bacteria removal; improves Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHP) scores and reduces hospital acquired infections. Reduces bacteria on 95% of all hard surfaces.

Greener

Significantly reduce consumption of water and chemicals; Re-usable and can be washed hundreds of times when cared for properly.

Safer

Light-weight mops reduce work strain

MICROFIBER HANDLE & FRAME

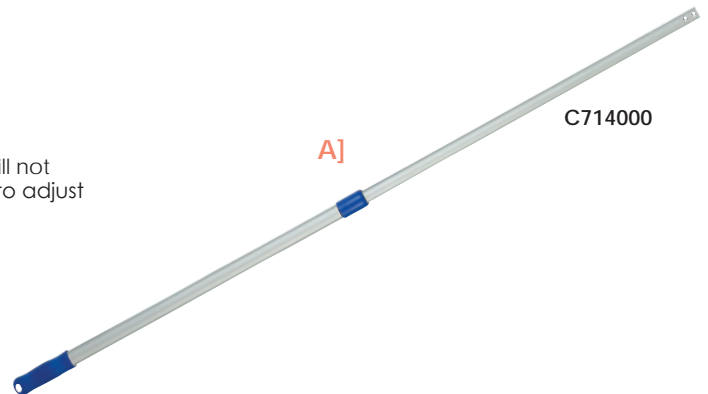

Our microfiber handle and frame are ideal for use in healthcare facilities and schools. These professional grade products increase performance and maximize worker productivity. Durable and light-weight aluminum components provide long-lasting quality.

MICROFIBER HANDLE

A] HUSKEE™ MICROFIBER FLAT MOP HANDLE

This handle is made of lightweight, long-lasting aluminum that will not rust or corrode. Twist-lock mechanism allows extendible handle to adjust from 33.5" to 60".

Item #	Description	Length	Color	Case Pack
C714000	Extendible	33 1/2" - 60"	Blue/Silver	10

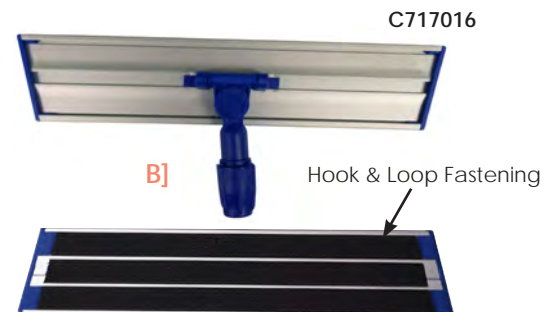

MICROFIBER FRAME

B] HUSKEE™ MICROFIBER FLAT MOP FRAME

Frame has a lightweight design that provides dramatic improvements in labor productivity. Trapezoid head effectively cleans corners and edges. 360° swivel attachment for maneuvering in tight areas.

Item #	Dimensions	Color	Case Pack
C717016	16" x 3"	Blue/Silver	10

THE FIVE BASICS OF WET MOPS...

CONSTRUCTION

looped-end

Designed for superior performance and extended life. There are no ends to fray or unravel as the mop sweeps over the floor surface in a wide, even path. Although the initial investment is higher, its increased performance, reduced labor cost, and less frequent replacement, quickly compensate.

Our line of **laundryable, looped-end mops** are designed to meet the needs of the health care industry and others who launder mops. These mops may be laundered repeatedly, while maintaining their clean appearance, low lint factor, absorbency, and strength, without shrinking. They also save money by outlasting cut-end mops up to 8x, and reducing labor costs by up to one half!

cut-end

The cut-end is the standard, **most popular and economical (initially) mop style**. Cut-end mops fray and unravel, increasing the lint factor and leaving loose strands behind. In addition, without tailbands, cut-end mops cover less area per pass. Since cut-end mops cannot be laundered, they are often considered "disposable" and are thrown away when their useful life is over.

YARN

Choosing the Best Value in Wet Mops

YARN	ADVANTAGES	DISADVANTAGES	USES
Cotton	Good absorption and retention. Low initial cost. Gentle on surfaces.	Requires break-in. Lints and dries slow, promotes mildew and deterioration.	General use, picking up liquids, scrubbing.
Rayon	Quick absorption and release. Dries fast, mildew resistant. Cleaner yarn, lints less.	Shrinks when laundered. Less liquid retention.	Applying liquids (finishes, disinfectants).
Synthetic	Long staple fiber for superior tensile strength, no lint. Quick release.	Higher cost. Poor absorption.	Professionals who require better and longer lasting mops.
Blends	Ideal balance for price, performance and durability. Synthetic fibers add durability and color.	May shrink (unless pre-shrunk).	Professionals who require better and longer lasting mops.

yarn

Certain yarns do a specific task better than other yarns.

That's why there is such a variety of mops. To get maximum efficiency and value from a wet mop, it is important to select the right yarn for the job.

yarn ply

Yarn ply indicates **the number of strands twisted together** to make a single yarn strand. More plies give added strength, though higher ply numbers do not necessarily mean higher quality yarn. More strands may add durability but they also decrease absorbency. It is generally recommended to choose a higher quality yarn than a high ply, low quality yarn.

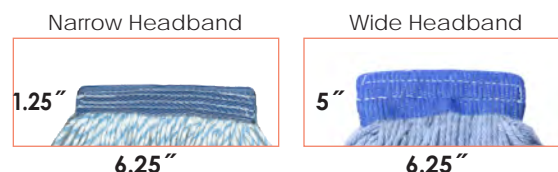

twist

A yarn's "twist" is a result of **how tightly the fiber strands are wound together**. While a tightly twisted yarn might be stronger and last longer, its absorbency may be decreased. Like yarn ply, the best value isn't determined by the yarn's twist, but by the type and quality of the yarn and the mop's construction. A mop with looped-end construction enables the yarn to have a loose twist while eliminating fraying.

HEADBANDS

1 1/4" headbands are compatible with stirrup-type handles and are useful on finishing-type mops such as our Huskee™ Finish Mop. 5" width headbands are compatible with clamp and jaw-type handles. The synthetic mesh material provides non-abrasive scrubbing to help dislodge dirt and to allow quick drying of yarns. Abrasive scrubbing pads can also be included.

Headbands are color-coded for quick identification:

RED: Small **LARGE:** Blue
MEDIUM: Green **X-LARGE:** Yellow

TAILBANDS

A tailband on a wet mop is designed to improve coverage and to enable the mop to cover a wider path, saving time and increasing productivity. Tailbands also prevent tangling so that a mop can be laundered repeatedly. Tailbands are included on all CCP looped-end wet mops.

SIZES

A mop's **size should be in relation to the job to be performed**, the mop wringer being used, and the user's

size. Cut-end mops are sized by their approximate weight in ounces, or are numbered. Looped-end mops are sized by industry standards, since they absorb and retain much more, while also covering a greater surface area than a cut-end mop, of comparable weight.

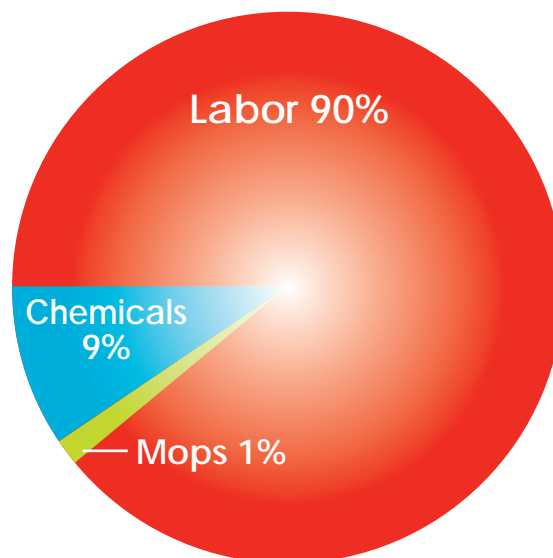

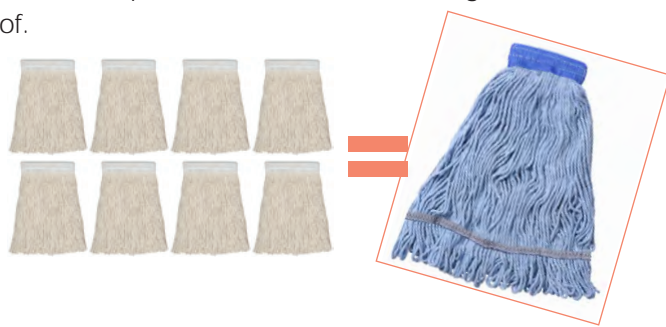

Size	Ounce Size	Band
Small	8-10	Red
Medium	16-20	Green
Large	24-32	Blue

what are the facts?

Choose a tool that gets the job done faster and better . . .

Why use an inefficient, "disposable," cut-end mop, when you can get the job done **twice as fast** with better results, using a looped-end mop? Looped-end mops cost more, but the price of a tool is **less than 1% of the cost** of mopping a floor.

One looped-end mop will **outlast eight cut-end mops**. A looped-end mop can actually be less expensive - by **up to 3x!** That means less mops to order, to stock, to change, and to dispose of.

labor savings

Based on mopping 5,000 sq. ft., at \$12 per hour.

	Cut-End	Looped-End
Daily Total	\$24	\$ 12
<i>Savings</i>		<i>\$ 12</i>
Monthly Total	\$720	\$ 360
<i>Savings</i>		<i>\$ 360</i>
Annual Total	\$8,640	\$4,320
<i>Savings</i>		<i>\$4,320</i>

The **real savings are labor costs**, an expense that eats up over 90% of your floor care budget. Several factors contribute to a looped-end mop's cost advantage. A looped-end mop covers a wider surface area (without gaps and loose strands, common with cut-end mops), absorbs up to six times as much liquid, and covers twice as much floor, with fewer trips to the bucket and wringer - in the same amount of time! Your annual savings in labor can easily be in the thousands of dollars!

mop cost savings

Based on buying eight cut-end mops per month.

	Cut-End (\$5 each)	Looped-End (\$9 each)
Monthly Total	\$40	\$ 9
<i>Savings</i>		<i>\$ 31</i>
Annual Total	\$480	\$108
<i>Savings</i>		<i>\$372</i>

In addition, **looped-end mops provide better results**, whether just damp mopping or finishing. That's because looped-end mops lint much less, providing a smoother application of chemicals, and have tailbands that help prevent tangles. You're cleaning and finishing floors better, for less cost, a fact that both accountants and users will appreciate!

WET MOPS

CCP's comprehensive product line features **a mop for any job and any budget**. We offer a wide variety of yarns as well as new products to help users do their job more efficiently. From premium looped-end mops to economic cut-end mops, we have a mop for any application.

\$ \$ \$ Let's talk value!

Selling the Right Mop for the Right Job

As every successful distributor knows, providing your customers with high-value products results in customer satisfaction. And, satisfied customers are repeat customers.

But how can an often overlooked commodity product, like a mop, affect your bottom line? Even though a mop represents an insignificant part of a job's cost, it has a great impact on the results. Upgrading your customer's floor care tools to looped-end mops provides them with better performance, longer mop life, and reduced labor costs.

*Since **labor costs account for over 90%** of a floor care program, it makes sense to help your customer reduce this cost. Looped-end mops, with their wider surface coverage, superior absorption, and cleaner results can reduce labor costs by up to one-fourth, providing you with a satisfied customer.*

*And, since **looped-end mops outlast cut-end mops up to 8x**, your customer saves even more!*

sustainability

All Continental Commercial Products® wet mops have green attributes that promote and enhance a comprehensive sustainability program. You can be sure that **CCP wet mops are environmentally friendly** and are constructed with a level of quality that ensures durability.

LOOPED-END WET MOPS

A] HUSKEEPRO® BLEND

This is our top-of-the-line blend mop, capable of cleaning two to three times the area with up to six times the life of a conventional, cut-end mop. Quick-drying yarn resists the growth of mildew and bacteria. Ideal for disinfecting and for all-purpose cleaning.

5" Band Item #	Size	Yarn Type	Yarn Color	Case Pack
A02501	Small	Blend	Natural	12
A02502	Medium	Blend	Natural	12
A02503	Large	Blend	Natural	12
A02601	Small	Blend	Blue	12

A11113	Large	Blend	Natural	12
A11212	Medium	Blend	Blue	12
A11213	Large	Blend	Blue	12

SPECIALTY WET MOPS

A] HUSKEE® ACTIONPRO® 100% recycled fibers

This non-woven, blend mop combines the absorbency of cotton and rayon, with the strength of synthetics, to create a durable application mop. Non-woven material has three times the absorbency of cotton with NO break-in period! Ideal for stripping floor finish.

Item #	Size	Yarn Type	Yarn Color	Case Pack
A956022	Medium	Blend	White	12

B] HUSKEE® MUSCLE MOP®

The feature-rich Huskee Muscle Mop combines the features of a looped-end mop, with the scrubbing power of a grout brush! The continuous tailband provides three cleaning surfaces to reduce labor, increase coverage, and reduce operator fatigue. Mop head features universal threaded fitting.

Item #	Size	Yarn Type	Yarn Color	Case Pack
A401006	Large	60% Poly, 20% Rayon, 20% Cotton	Blue	6
A401206	Large	60% Poly, 20% Rayon, 20% Cotton	Red	6

Designed with three cleaning surfaces.

Accepts threaded handles only, found on page 32.

MICROFIBER WET MOPS

A] HUSKEE® MICROFIBER LOOP

This looped-end, microfiber mop requires less chemical use than a conventional cotton or blend mop, making it very environmentally friendly! Microfiber offers excellent absorbency and superior scrubbing power. Mop can be laundered hundreds of times.

5" Band Item #	Size	Yarn Type	Color	Case Pack
A10002	Medium	Microfiber	Blue	12
A10102	Medium	Microfiber	Green	12

A10102

FLOOR FINISH WET MOPS

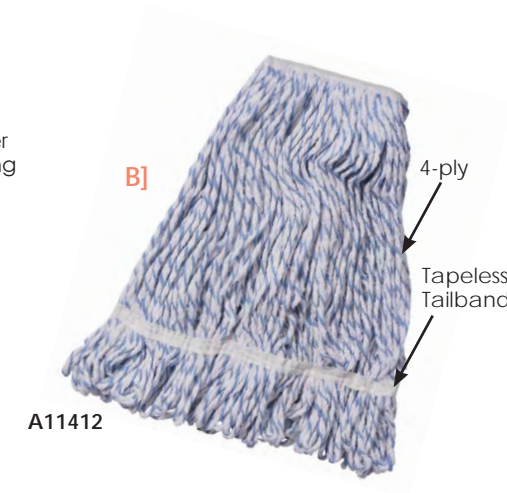

LIQUID APPLICATION MOPS

When it's time to apply finishes and sealers, use a tool designed for the job. Our conventional style finish mops provide a smooth, clean finish, while outlasting conventional cut-end mops over 8x. You'll get a better finish, with less effort.

B] HUSKEE® FINISH MOP

This economical, looped-end, finish mop is constructed of a durable 4-ply rayon blend yarn that releases more liquid for a faster, smoother finish than is possible with a conventional finish mop. Ideal for applying sealers, finishes and disinfectants.

1.25" Band Item #	Size	Yarn Type	Yarn Color	Case Pack

FLOOR CARE | DRY

Before any wet floor care maintenance can happen, dust and dirt particles have to be removed. Be it on hardwood, linoleum, carpet, or even concrete, we have a wide range of tools to get the job done the first time. All of our items are quality tested and annually reviewed to make sure the professionals who use our floor care tools have exactly what they need.

DUST MOP DEFINITIONS

yarn

Cotton is the most economical and popular yarn, despite its disadvantages, when compared to other fibers. Cotton is often blended with synthetic fibers, to add strength and absorbency. Some of these yarns are designed to withstand laundering, while others, like disposables, are constructed with bulky, loosely twisted yarn for better dust removal. Nylon, like that used in our HuskeeProStat™, has electrostatic properties that attract dust particles, without the use of treatment.

cut-end

The cut-end dust mop, though more economical at first, tends to fray, unravel and lint. This can decrease its performance and lead to replacement of the mop. Laundering can decrease durability.

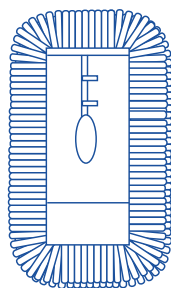

looped-end

By trapping more dust, producing less yarn debris and resisting tangles, the looped-end dust mop delivers maximum performance. Because looped-end yarns withstand heavy use and frequent laundering without fraying and unraveling, linting is virtually eliminated. Looped-end yarn is for hi-tech and health care applications.

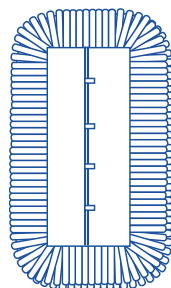

backing

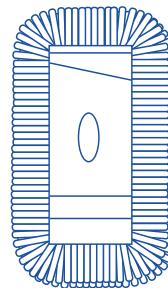

Synthetic backing material has replaced cotton, as the industry standard, because it dries much faster and absorbs less treatment than cotton. We also offer a variety of backing styles including Key Hole, Open, and Slot Pocket (illustrated at right). Our Disposable Dust Mops are available with backings as shown.

Key Hole

Open Back

Slot Pocket

durability

High quality construction standards lead to the best value, in a dust mop. **Huskee™** mops are made with the highest level of professional quality, with pre-shrunk backings and top-grade yarn, to withstand heavy use and repeated launderings. Reinforced stitching at stress points are signs of better mop construction. Innovative yarns, like our HuskeeProstat™, can provide longer-lasting service, as well as increased performance.

frames & handles

To provide free swiveling or rigid handle positions, use a handle with a swivel-snap device attached to the frame. Frames are available from 18" to 48".

DUST MOPS

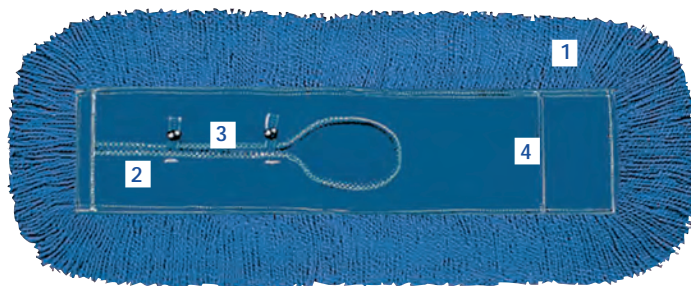

Choose any of our CCP dust mops to protect your floor and finish from abrasive dust and dirt.

\$ \$ \$

Let's talk value!

CCP offers the best value in dust mops!

The removal of dust and dirt particles is the first step in proper floor care. A preventative maintenance program, using quality dust mops, will protect your floor and finish from abrasive dust and dirt particles. To accommodate your needs, we offer a variety of dust mops to assist in the efficient removal of dust and dirt. Let the following information assist you in choosing which dust mop is right for your needs.

- 1** A wide variety of high grade yarns provide maximum durability and performance.
- 2** Extra stitching assures long life, even with laundering.
- 3** Heavy-duty, rust resistant snaps are fast and easy to use.
- 4** Durable synthetic (polyester) backing dries fast and is available in bright colors.

DUST MOPS

Protect your floor and finish from abrasive dust and dirt, with our Huskee® dust mops.

PROFESSIONAL DUST MOPS

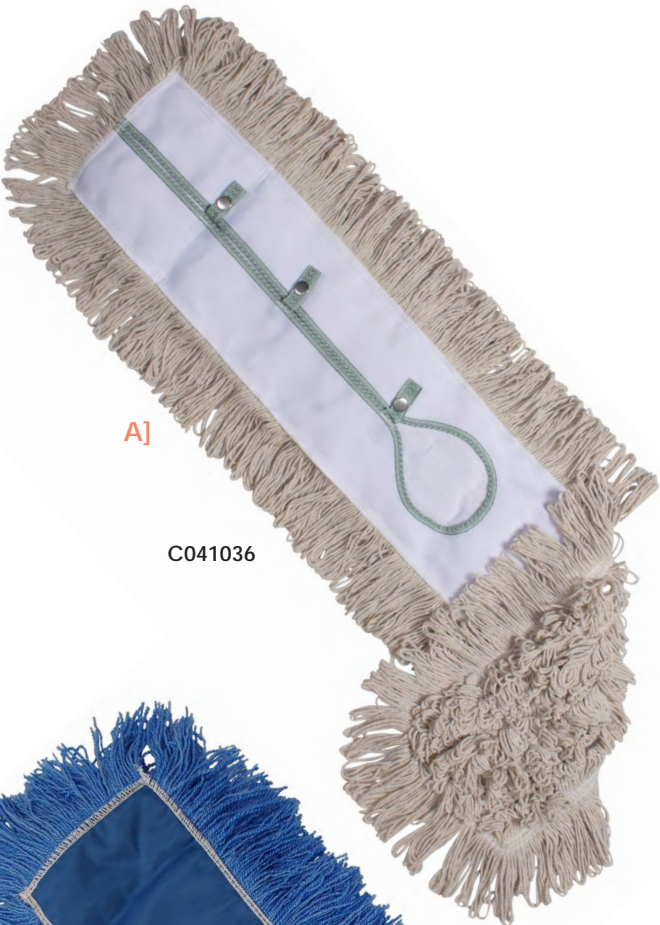

DURABLE, LAUNDERABLE MOPS

These high-performance dust mops are designed and constructed for industrial laundrers, healthcare facilities, and other demanding applications. Innovative yarns, pre-shrunk synthetic backings, and heavy-duty construction techniques provide maximum durability and efficiency.

A] HUSKEEPRO®

High-grade, cotton blend, looped-end yarn won't fray or unravel, even after laundering. This ensures longer product life than conventional cut-end dust mops. Looped-end design provides maximum dust collection and product longevity. Key Hole style back.

Item #	Size	Yarn Type	Color	Case Pack
C041036	36"	Blend	Natural	12

B] HUSKEEPROSTAT®

Durable, 2-ply, synthetic yarn attracts dust like a magnet, by creating an electrostatic charge. Unlike other dust mops, this product requires no treatments, making it ideal for use in chemical sensitive areas like hospitals, healthcare, and laboratories. Slot Pocket style back.

Item #	Size	Yarn Type	Color	Case Pack
C052024	24"	Synthetic	Blue	12

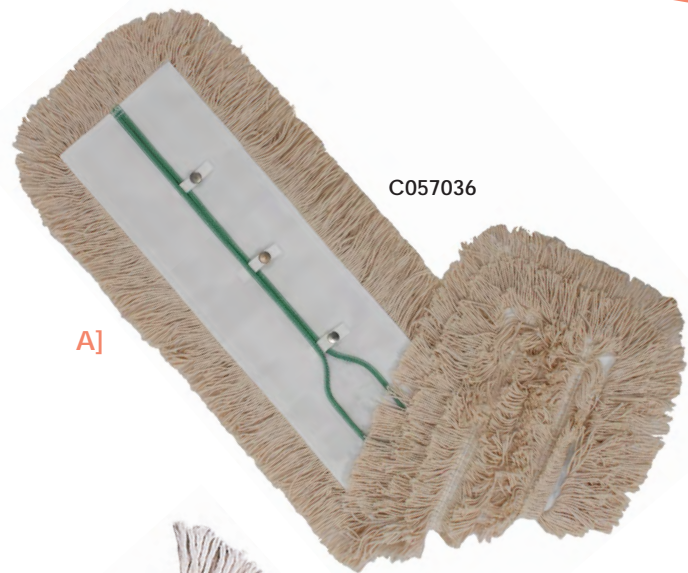

CONVENTIONAL DUST MOPS

A] HUSKEECLASSIC®

This industry-standard dust mop is constructed of 4-ply cotton-blended yarn, sewn to a durable, polyester backing.

Item #	Size	Yarn Type	Color	Case Pack
C057024	24"	Blend	Natural	12
C057036	36"	Blend	Natural	12

DISPOSABLE DUST MOPS

B] HUSKEEVALUE™

This disposable dust mop is made from 4-ply cotton/synthetic yarn, with a polyester backing. Split-backing provides a trap to collect dust and dirt. Use with Swivel Snap™ frame and handle, found on page 28.

Item #	Size	Yarn Type	Color	Case Pack
C404024	24"	Blend	Natural	12

C] HUSKEEECONOMY®

Cotton/synthetic yarn, with a tie-free backing, provides performance, durability, and value. Absorbent, pre-treated, 4-ply yarn collects and retains dust. Split backing provides a trap to collect dust and dirt. Use with Swivel Snap™ frame and handle, found on page 28.

Item #	Size	Yarn Type	Color	Case Pack
C401024	24"	Blend	Natural	12

DUST MOP HANDLE & FRAMES

We offer a dust mop handle with both free-swiveling and rigid handle position. Our frames are available in two sizes. Use with any of our dust mops, to suit your specific need.

DUST MOPS HANDLE

A] HUSKEE™ SWIVEL SNAP HANDLE

The regular Swivel Snap handle features 180° swivel action or rigid position and spring clip. Shaft is available in wood.

Item #	Shaft Dimensions	Handle Type	Color	Case Pack
C801060	15/16" x 60"	Wood	Natural	12

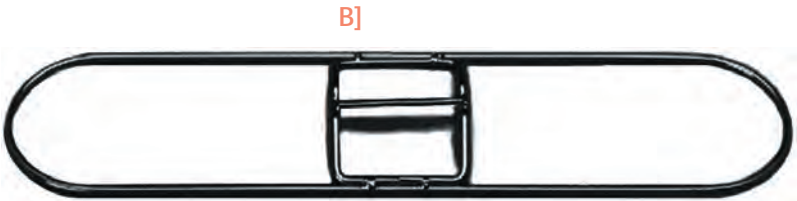

C801060

DUST MOPS FRAMES

B] HUSKEE™ FRAMES

These heavy-duty, industry-standard frames are constructed of rust-resistant, powder-coated, metal wire for long life. Frame features welded, one-piece construction. Use with our Swivel Snap Handle.

Item #	Dimensions	Color	Case Pack
C702024	24" x 5"	Black	12
C702036	36" x 5"	Black	12

C702024

DUST PANS

Our hand-held and lobby dust pans are perfect for industrial, commercial, and outdoor use.

HAND-HELD DUST PANS

A] PLASTIC DUST PAN

Tough, yet flexible. Thin front edge for maximum dirt pick up. Features a hanger hole. NEW FEATURE ADDED: a molded-in 'comb' for removing debris from counter brushes and brooms.

Item #	Hopper Dimensions	Handle Length	Color	Case Pack
712	12 ¹ / ₈ " x 12 ¹ / ₄ "	4 ³ / ₈ "	Black	12

LOBBY DUST PANS

B] LOBBY DUST PAN

Durable plastic hopper with vinyl-coated, steel handle. Pan snap-locks in use and releases to dump or carry. Space-saving hanger for storage. The true-edge of pan conforms to floor - no need for repeated sweeping. Serrated yoke provides area to "comb" debris from lobby broom. 36.5" total height.

Item #	Hopper Dimensions	Color	Case Pack
912BK-12	12" x 10" x 6"	Black	12

C] LOBBY DUST PAN / SYNTHETIC BROOM SET

This convenient set is perfect for tidying up, in many areas. The Lobby Dust Pan has a durable, plastic hopper, with a vinyl-coated, steel handle. Pan snap-locks in use and releases to dump or carry. Space-saving hanger for storage. The true-edge of pan conforms to floor - no need for repeated sweeping. Serrated yoke provides area to "comb" debris from lobby broom. At 35" high, the companion broom is perfectly sized for use with this lobby dust pan. Stiff, flagged, polypropylene bristles do an excellent job of collecting debris on floor surfaces ranging from carpet to tile. 36.5" total height.

Item #	Hopper Dimensions	Broom Dimensions	Color	Case Pack
812C	12" x 10" x 6"	10 ¹ / ₂ " x 36"	Black	1

BROOMS

Our professional-grade angle brooms and corn brooms are designed to provide efficient sweeping, reaching into corners, along base boards or into hard-to-reach areas for fast, effective cleaning. Available in sizes for all needs, from small stores to warehouses.

LOBBY BROOM

A SYNTHETIC LOBBY BROOM

At 36" high, this broom is perfectly sized for use with our lobby dustpan. Stiff, flagged, polypropylene bristles do an excellent job of collecting debris on floor surfaces ranging from carpet to tile.

Item #	Size	Bristle Type	Handle Material	Bristle Trim	Bristle Color	Case Pack
E503600	10½" x 36"	Flagged Polypropylene	Metal	4"	Black	6

HUSKEE® BROOMS

Upgrade your corn broom line with Huskee, the highest quality corn brooms made. For routine or heavy-duty cleaning, these durable, upright brooms are designed for long life and efficient sweeping. We offer economical, blended fiber options. All brooms feature double-stitched, nylon, cord-bound fibers that are wire-wrapped onto wood handles.

B] CORN BLEND BROOMS

The Huskee Corn Broom line features high quality corn brooms made for routine or heavy-duty cleaning. These durable, upright brooms are designed for long life and efficient sweeping.

Item #	Description	Bristle	Fill Weight	Rows of Stitches	Stitch Color	Metal Band	Handle Color	Total Length	Case Pack

ANGLE BROOMS

CONTEMPORARY PLASTIC BROOMS

A] ANGLED BROOM

This broom features an angled design for sweeping into corners and tight areas, and are attached to 48" long metal handles. Yellow polypropylene bristles are available with flagged tips.

Item #	Size	Bristle Type	Bristle Trim	Bristle Color	Handle Material	Handle Size/Color	Case Pack
E507012	11" wide	Polypropylene	5 1/2 - 6 1/2"	Yellow	Metal	48" Black	12

SWEEPS - FLOOR & GROUND

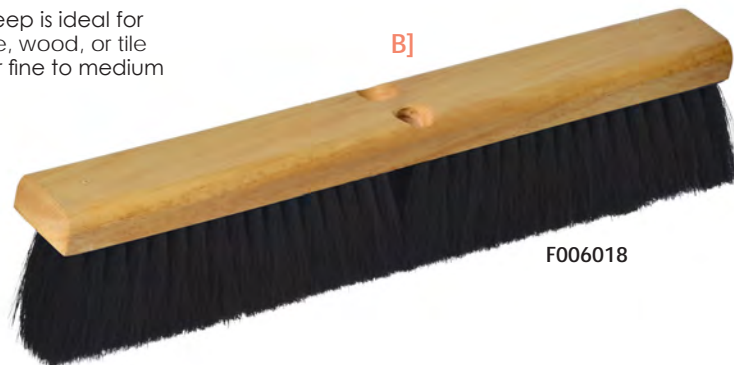

Black Tampico

Comes from the leaf of the cactus-like Lechuguilla plant of Mexico. With a soft to medium texture and good durability, Tampico may be used alone or blended with other materials. Naturally off-white in color, the fibers are dyed black.

B] BLACK TAMPICO FLOOR SWEEP

This full-bodied, flexible, and long-wearing sweep is ideal for industrial or commercial cleaning on concrete, wood, or tile floors. Considered the best all-purpose tool for fine to medium clean up jobs. Black fibers.

Item #	Block	Block Size	Bristle Trim	Case Pack
F006018	Wood	18"	3"	12
F006024	Wood	24"	3"	12

Accepts threaded handles only, found on page 32.

HANDLES

Our professional quality, threaded handles come with a metal or wood end.

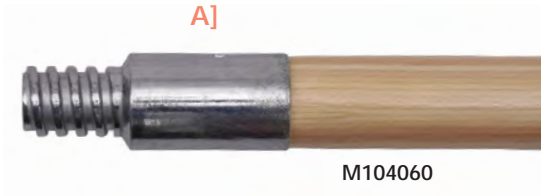

UTILITY HANDLES

A] METAL THREADED WOOD HANDLE

This handle is great for use with sweeps and scrub brushes. Comes in lacquered wood.

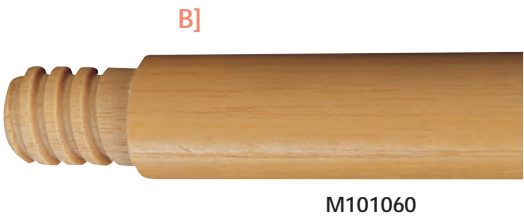

Item #	Head	Shaft Dimensions	Color	Case Pack
M104060	Metal	15/16" x 60"	Natural	12

B] THREADED WOOD HANDLE

Wood handle with lacquered finish stands up to heavy use. Standard threads fit many products.

GENERAL CLEANING

At CCP, we like things clean. Not just clean, but really clean. Our Product Managers have worked hard to make sure if you like really clean things, this section will have you covered.

GENERAL CLEANING

CARTS

Our carts are the workhorses of the industry, and easily accommodate a variety of tools and supplies, increasing organization and worker efficiencies.

JANITOR CARTS

Our exclusive Derma-Tek® Smooth Surface makes our carts the easiest in the industry to clean and keep clean! All-plastic construction will not rust, peel, or fade. The color is molded throughout, keeping scratches and dings from showing. The three-legged design is stable under heavy loads. Non-marking, grey, 8" rear wheels and 3" front swivel casters provide maximum maneuverability with minimum effort and prevent floor scuffing. Large oversized wheels and casters provide an effortless ride with minimal noise; ideal for any type of cleaning environment.

JANITORS' CART

This cart is the workhorse of the industry! Designed to accommodate and organize tools and supplies required by today's stringent facility managers. Over-sized wheels and casters make this cart the logical choice for heavy-duty applications in healthcare, airports, convention centers, theaters, shopping centers, office buildings, and more! Vinyl Bag is included.

194 Colors: Black [BK], Grey [GY]

WASTE COLLECTION

A blurred office scene with a trash can and chairs. The image is a monochromatic purple-tinted photograph of an office interior. In the foreground on the left, a dark-colored trash can with a white recycling symbol is visible. Behind it and to the right, several office chairs are arranged. In the background, there is a window with horizontal blinds and a large screen or monitor. The overall image is out of focus, creating a sense of depth and a professional atmosphere.

In 1976, we were the first to establish what a commercial trash receptacle should be, and proudly named it Huskee™. Always made in the USA with durable, high-quality resin, this full-feature receptacle provides years of use. For nearly a half century, we've carried that same Huskee quality into our full line of receptacles, lids, and accessories. Engineered for greatness, this line-up is prepared for your dirty jobs.

WASTE COLLECTION

Huskee™

THE COMMERCIAL CONTAINER

The industry standard since 1976

DURABLE LIDS
Tight closure. Allows receptacles to be stacked.

BAG CINCH
Secures the poly liner on 32, 44 and 55 gallon sizes, without having to tie it!

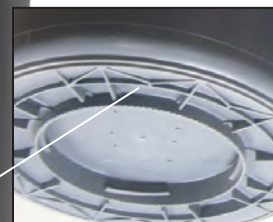

HEAVY-DUTY HANDLE
Reinforced handles provide secure areas for lifting or moving the receptacle.

FLANGED RIM
Adds strength and durability.

Huskee™
Continental Commercial Products

High-quality, commercial-grade wall stock is perfect for cold climates.

CUSTOMIZE
Wide range of color options. Customize with your logo or a special message.

REINFORCED BASE
Extra reinforcement produces a much stronger and longer-lasting receptacle! Accepts universal dolly!

RECEPTACLES, LIDS & ACCESSORIES

Simply put, Continental's line of indoor and outdoor receptacles is the best! Best in choice, functionality and value. Add our dollies and accessories to maximize performance and add even more value!

HUSKEE™ ROUND

The industry standard! Molded with seamless construction, the Huskee is a strong, long-lasting receptacle that is used everywhere. From food prep to foundries, from refuse to bio-hazard waste, Huskee keeps on working. **For Huskee Accessories, see page 44.**

FAQ's...

Which Huskee receptacles are NSF: Standard 21 rated?
All bases and lids.

Which Huskee receptacles are NSF: Standard 2 rated?
Grey and white bases & lids.

Which Huskee receptacles are FDA and USDA approved?
All our Huskee receptacles, from 10 to 55 gallon, are made of FDA compliant material. USDA requirements for material approval are satisfied by a certification of FDA compliance.

What temperature range can a Huskee withstand?
0 -190° F for NSF rated items, 0 - 205° F for all other Huskee receptacles.

What material are Huskee receptacles made of? LLDPE

Can you store wine in a Huskee? We recommend against using a Huskee, or other plastic waste receptacles, for wine storage. During the fermenting process, the taste of plastic can pass into the wine.

WASTE COLLECTION

RECEPTACLES, LIDS & ACCESSORIES

Derma-Tek® smooth surface enables easy clean-up. Dual, vinyl-coated cable lid stays hold the lid in a vertical position for safe, easy emptying, and help eliminate tipping of the base. Heavy-duty poly liner retainer straps allow the user to secure a poly liner within the container for a clean, professional appearance.

COLOSSUS®

Designed for high-volume applications! The contoured lid's top surface prevents accumulation of debris and water while providing a unique and visually appealing style.

Because the spring-loaded doors fit tight to the lid, and the lid fits tight to the base, this receptacle is Factory Mutual Approved. The heavy-duty door springs keep doors closed tight to keep odors in and pests out.

Door Dimensions: 17.5" x 9" H

WASTE COLLECTION

RECEPTACLES, LIDS & ACCESSORIES

This product aids in conforming to the OSHA regulation 1910.1030 known as "Occupational Exposure to Bloodborne Pathogens" and is fire resistant. Lid attachment is covered on top so dirt does not collect in the hinge. The 23 gallon version has covered wheels for mobility and cleanliness. The Spine is designed to be flexible, keeping it from breaking if the lid is held down when the pedal is stepped on. Unique "key-way" notch holds standard size poly liners.

STEP ON

Step pedal provides convenient, hands-free and hygienic disposal of waste. Lids close securely to base, keeping odors contained. Can be used with standard poly liners. The 23 gallon version has wheels and wire frame for ease of mobility. Heat resistant to 122°F.

WASTE COLLECTION

RECYCLING

Recycling is the main component of waste reduction. Continental offers a wide variety of recycling receptacles. From small desk-side wastebaskets to our large 32 gallon receptacles, we have the right size and style for your collection needs!

RECYCLING

Continental® has a wide variety of recycling receptacles that promote and enhance a comprehensive recycling program. Made from recycled resins, our products are highly functional and durable. Innovative, sleek and attractive designs encourage users to support recycling programs.

Products in this section are produced using industrial recovered material.

RECYCLING WASTEBASKETS

A] COMMERCIAL WASTEBASKET

The low profile design of these rectangular wastebaskets make them ideal for a variety of recycle applications such as classroom, office, commercial or institutional use.

Item #	Size / Shape	Dimensions	Color	Case Pack
1358-1	13 ⁵ / ₈ qt. Rectangle	11 ³ / ₈ " x 8" x 12" H	Blue	12
2818-1	28 ¹ / ₈ qt. Rectangle	14 ³ / ₈ " x 10 ¹ / ₄ " x 15" H	Blue	12
4114-1	41 ¹ / ₄ qt. Rectangle	15 ¹ / ₂ " x 11 ¹ / ₂ " x 19 ³ / ₄ " H	Blue	12

Did you know...

that multi-stream, waste collection options can be created by combining 1358 and 4114 wastebaskets? See page 50 for all non-recycle color options.

RECYCLING RECEPTACLES

A] WALL HUGGER® RECYCLE RECEPTACLE

Built of durable plastic, these receptacles work efficiently in tight spaces. Their sleek, attractive design holds 23 gallons of recyclables, but protrude less than one foot from the wall. A molded-in bag cinch eliminates the need to tie knots in poly liners. The base features molded-in hand grips which provide a secure area to grasp when lifting or dumping. Designed with smooth, seamless construction for easy cleaning and prolonged life. At 30" tall, it is ideal for placement under standard work tables.

#8322 Colors: Black (no recycle symbol) [BK], Blue [-1]

Item #	Size / Style	Dimensions	Case Pack	MOD Qty.
8322	23 gal.	20" x 11" x 30" H	4	8 Pks.

Must be purchased in full MOD quantities.

Bag Cinch eliminates the need to tie knots in poly liners!

Recessed hand-hold area on bottom for easy lifting and emptying.

B] WALL HUGGER® DOLLY

The Wall Hugger line offers a Dolly, to make transport easy. This attractive, powder-coated steel Dolly has 3" non-marking, all-swivel casters, enabling it to turn any CCP Wall Hugger, or other receptacle, into a mobile waste or recycle collection system.

Item #	Dimensions	Color	Case Pack
8320	19 1/2" x 10 1/2" x 10" H	Black	2

RECYCLING RECEPTACLES

A] HUSKEE™ ROUND

Molded of engineered resins with seamless construction, the Huskee is a strong, long-lasting receptacle ideal for recycling applications. For mobility, add the Huskee Dolly. Other lid options are available on page 44.

Item #	Size	Dimensions	Color	Case Pack	MOD Qty.
2000-1	20 gal.	22" x 22 1/2" H	Blue	6	- - -
3200-1*	32 gal.	24 3/4" x 27 1/2" H	Blue	6	4 Pks.

*Must be purchased in full MOD quantities.

B] HUSKEE™ ROUND FLAT, RECYCLE LID

3.75" center hole and permanent "Cans Only" imprint encourages use.

Item #	Size	Dimensions	Color	Case Pack
3201-1	fits 3200-1	24 3/8" x 1 1/2" H	White	6

MATERIAL HANDLING

These are the bad boys of our industry. Designed to last, while **hauling heavy loads of the most random items you can find**, these trucks and carts won't rust or distort. With a range of sizes and capacities, we've made sure that one-person-handling, easy clean up, and storage all come standard.

MATERIAL HANDLING

TILT TRUCKS

All sizes and capacities come standard with heavy gauge, enamel-coated steel frames. These units are designed to last, with plated caster housings and hardware. Metal frames are tucked into the profile of the units to support heavy loads and to prevent bulging and tub distortion.

5/8 CUBIC YARD TILT TRUCKS

All models feature one-piece, extra strong, seamless, industrial plastic construction. Inset wheel placement prevents wall/door damage and allows for nesting in shipment and in storage. Fits through standard office doorways.

Item #	Size / Description	Capacity	Dimensions	Color	Case Pack
5839BK	5/8 cu. yd. Utility Tilt Truck	300 lbs.	65 1/2" x 29" x 38 3/4" H	Black	1

FOOD SERVICE EQUIPMENT

Convenient, portable storage bin for large quantities of food ingredients such as flour, sugar, rice, vegetables, etc.

INGREDIENT BIN

MOBILE INGREDIENT BIN

The two-piece, clear co-polyester lid lets you see exactly what's inside. Unique sloped front opens easily. Access ingredients without having to move the bin from under the counter. Two-piece lids are removable for easy filling, tilt up or slide back for convenient access. Units are equipped with four 3" non-marking casters; two swivel for fingertip maneuverability and two are fixed. The Ingredient Bin body is constructed of Derma-Tek® smooth-surface plastic. Seamless walls and round corner design make cleaning simple and thorough.

The 9321, 21 gallon Ingredient Bin holds 160 lbs. (71kg) of sugar and 126 lbs. (56kg) of flour.

#40171647 Replacement Lid is available.
